

Application of a^2+1/a^2 & $k^2 \pm 2$ & , $k^2 \pm 2p$

Type 1- Question numbers:

- 3, 4, 12, 13, 15, 17, 26,
27, 32, 37, 38, 39, 42, 43,
45, 48, 52, 56, 60, 61, 62,
63, 66, 70, 72, 74, 77, 84,
87, 89, 97,

Application of $k^3 \pm 3k$ & $k^3 \pm 3pk$

Type 1- Question numbers:

2, 5, 6, 7, 9, 14, 15, 22, 26,
31, 32, 39, 40, 50, 54, 57,
63, 73, 76, 78, 85,

Type 2- Question numbers:

2, 3, 6, 7, 11, 55, 73,

Type 3- Question numbers:

33, 36, 24, 26, 32,

Application of $\sqrt{S+2P}$

Type 1- Question numbers:

47, 67

Type 2- Question numbers:

32, 34, 37, 41, 48, 56, 82,

Application of $a^3+b^3+c^3-3abc$

Type 1- Question numbers:

46, 65,

Type 2- Question numbers:

1, 4, 5, 8, 12, 14, 19, 21,
22, 23, 29, 30, 33, 35, 36,
38, 39, 40, 43, 45, 46, 50,
51, 53, 60, 61, 63, 83,

Type 3- Question numbers:

1, 19,

Application of special identity of a^3+b^3 & $a^3- b^3$

Type 1- Question numbers:

8, 49, 86,

Type 2- Question numbers:

62,

Type 3- Question numbers:

2, 21,

Application of 1,3,3,1

Type 1- Question numbers:

24, 82,

Application of sum of perfect squares is zero

Type 1- Question numbers:

21, 64,

Application of $x + \frac{1}{x} = \pm 2$

Type 1- Question numbers:

28, Type 3:- 29

Application of solution of linear equations

Type 1- Question numbers:

35, 67,

Application of $(a+b)(a-b)$

Type 1- Question numbers:

80, 83,

Type 2- Question numbers:

10, 16, 57,

Application of Remainder Theorem

Type 2- Question numbers:

18, 47,

Type 2- Question numbers:

64,

Application of d-if -logic

Type 2- Question numbers:

49,

Type 3- Question numbers:

10,

Application of system of linear equations

Type 2- Question numbers:

66, 69, 72,

Application of $x^n + \frac{1}{x^n}$

Type 3- Question numbers:

3, 5, 8, 9, 11, 14, 16, 22,
28, 33,
