

INVENTIONS AND INVENTORS

**who is now widely credited
with inventing the modern-day
hypodermic syringe.**

Alexander Wood

**who administered his first
smallpox vaccine to a boy in 1796**

Edward Jenner – created the world's first vaccine

**Who invented what was
arguably the world's first
hollow needle**

In 1844, Irish surgeon Francis
Rynd

Which scientist discovered the radioactive element radium?

Marie Curie

Physics with her husband **Pierre Curie** and physicist **Henri Becquerel** for their pioneering work developing the theory of "radioactivity"

first woman to win a Nobel Prize,
the first person and the **only woman** to win the
Nobel Prize twice,

and the only person to win **the Nobel Prize in two
scientific fields**.

She was also the **first woman to become a
professor** at the University of Paris.

"most inspirational woman in science"

only person to win **in multiple sciences**

When did she win the Nobel Prize
in Chemistry for the discovery of
two
elements, polonium and radium

1911

For what was Irene Curie
with her husband, Joliot-Curie
was awarded the Nobel Prize in
Chemistry in 1935

for their discovery of **artificial
radioactivity**

Irène Joliot-Curie

Marie Curie and Pierre Curie, and the wife of Frédéric Joliot-Curie.

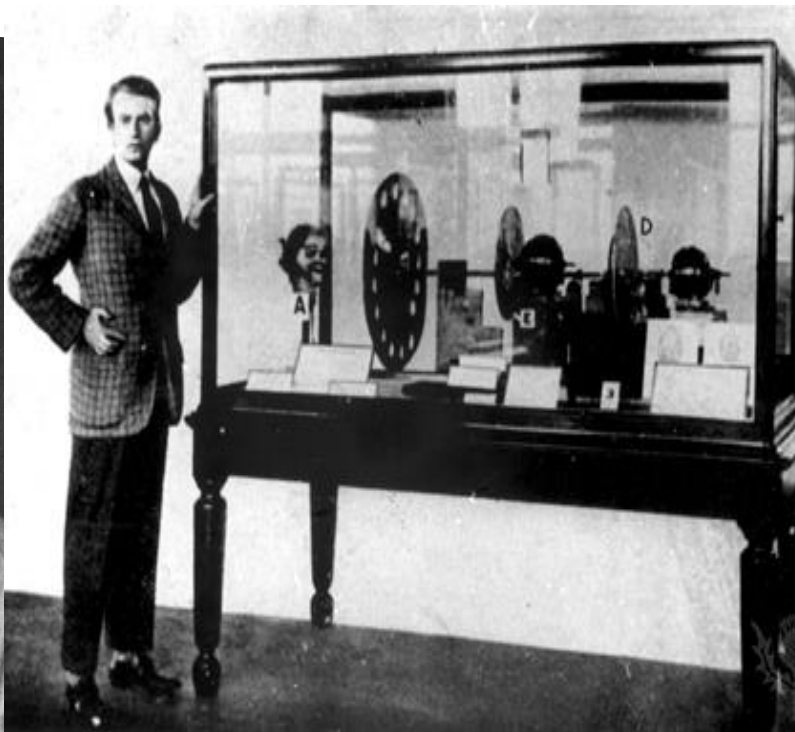

Jointly with her husband, **Joliot-Curie** was awarded the **Nobel Prize in Chemistry in 1935** for their discovery of **artificial radioactivity**

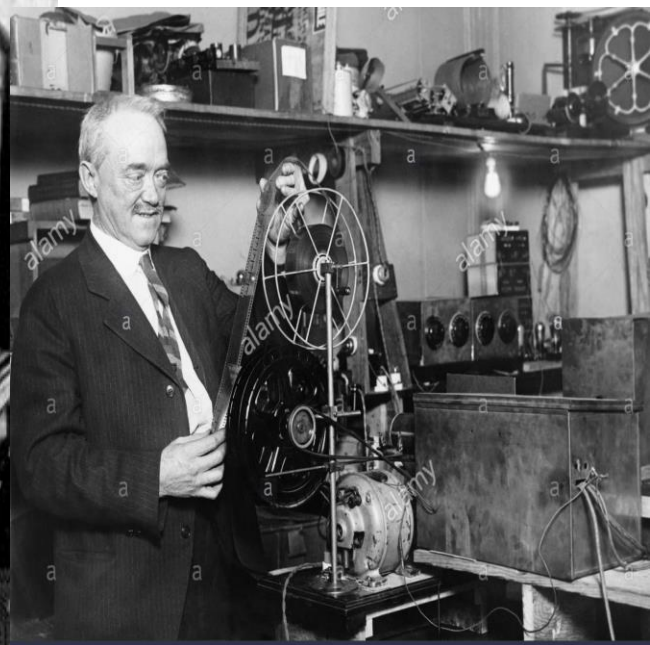

What type of system did Paul Nipkow, John Baird, and Charles Jenkins all invent?

John Baird

Paul Nipkow

alamy stock photo

KWDWE
www.alamy.com

Charles Jenkins

All of the inventors mentioned
invented an early mechanical
television system.

All of the inventors mentioned invented an early mechanical television system.

Paul Julius Gottlieb Nipkow was a German technician and inventor. He invented the **Nipkow disk**, which laid the foundation of television,

Many scholars credit **Jenkins** with inventing the first television set in the **United States**.

British inventor **John Logie Baird** broadcast images on a television in **Europe** a few months before Jenkins managed to complete the same task in the United States.

What invention was first installed at
a Hartford, Connecticut bank in
1889?

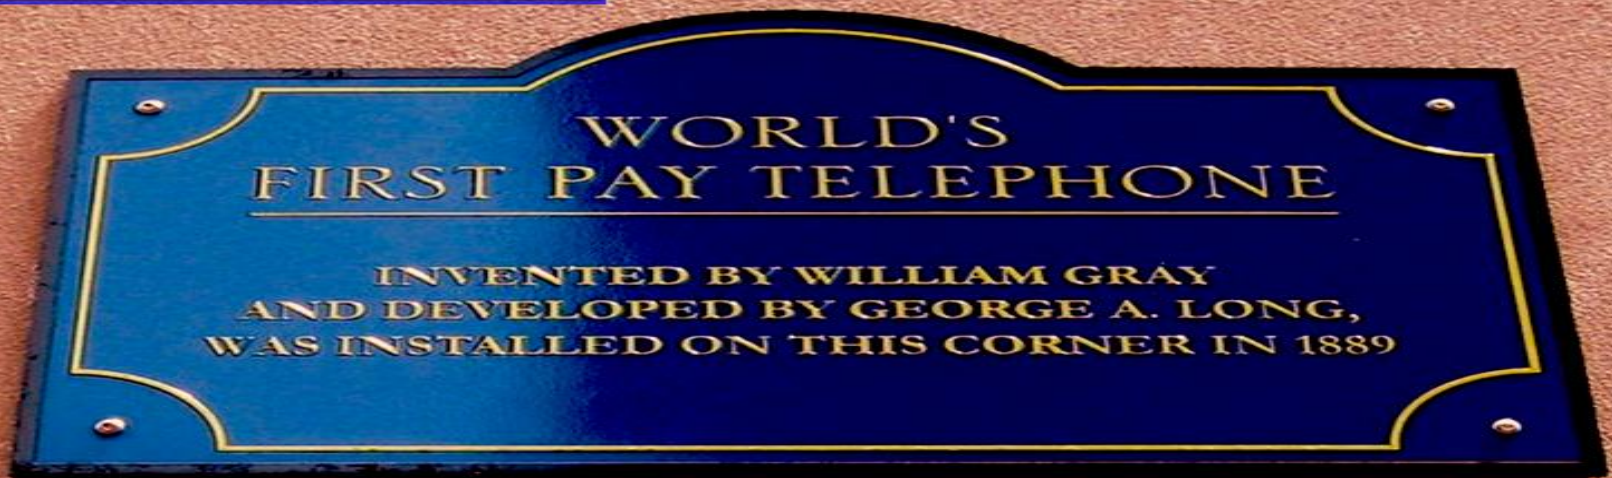

Pay telephone

Who made the Pay telephone

George Gray

Answer :Pay telephone :George Gray

**THIS DAY in
PATENT HISTORY**
August 13

On Aug. 13, 1889 **William Gray** of Hartford, Connecticut, received a patent for a **coin-operated telephone**.

Soon he formed the Gray Telephone Pay Station Company to market his invention.

US 408709 A
August 13, 1889

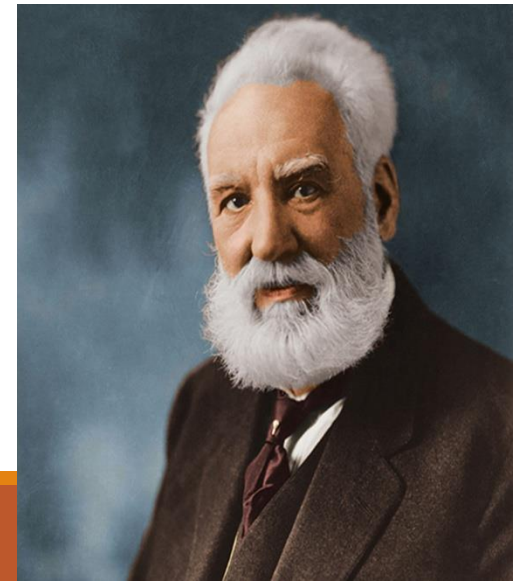

Source: Michael Herrick via HMdb.org

**Who invented the
Telephone ?**

Scottish inventor **Alexander Graham Bell** is known as the inventor of the telephone after being awarded the patent in 1876.

The **patent for the telephone is believed to be one of the most valuable in the world.**

co-founded the American
Telephone and Telegraph
Company (AT&T)

Who invented the World Wide Web ?

He received the 2016 Turing Award "for inventing the World Wide Web, the first web browser, and the fundamental protocols and algorithms allowing the Web to scale"

Tim Berners-Lee is the British engineer and computer scientist who invented the Worldwide Web

The first website went online in 1991

Berners-Lee is the director of the World Wide Web Consortium (W3C)

He was honoured as the "Inventor of the World Wide Web" during the 2012 Summer Olympics opening ceremony

Who invented the Light bulb?

(incandescent light bulb)

Edison's lamp - Thomas Edison is usually credited with the invention of the light bulb

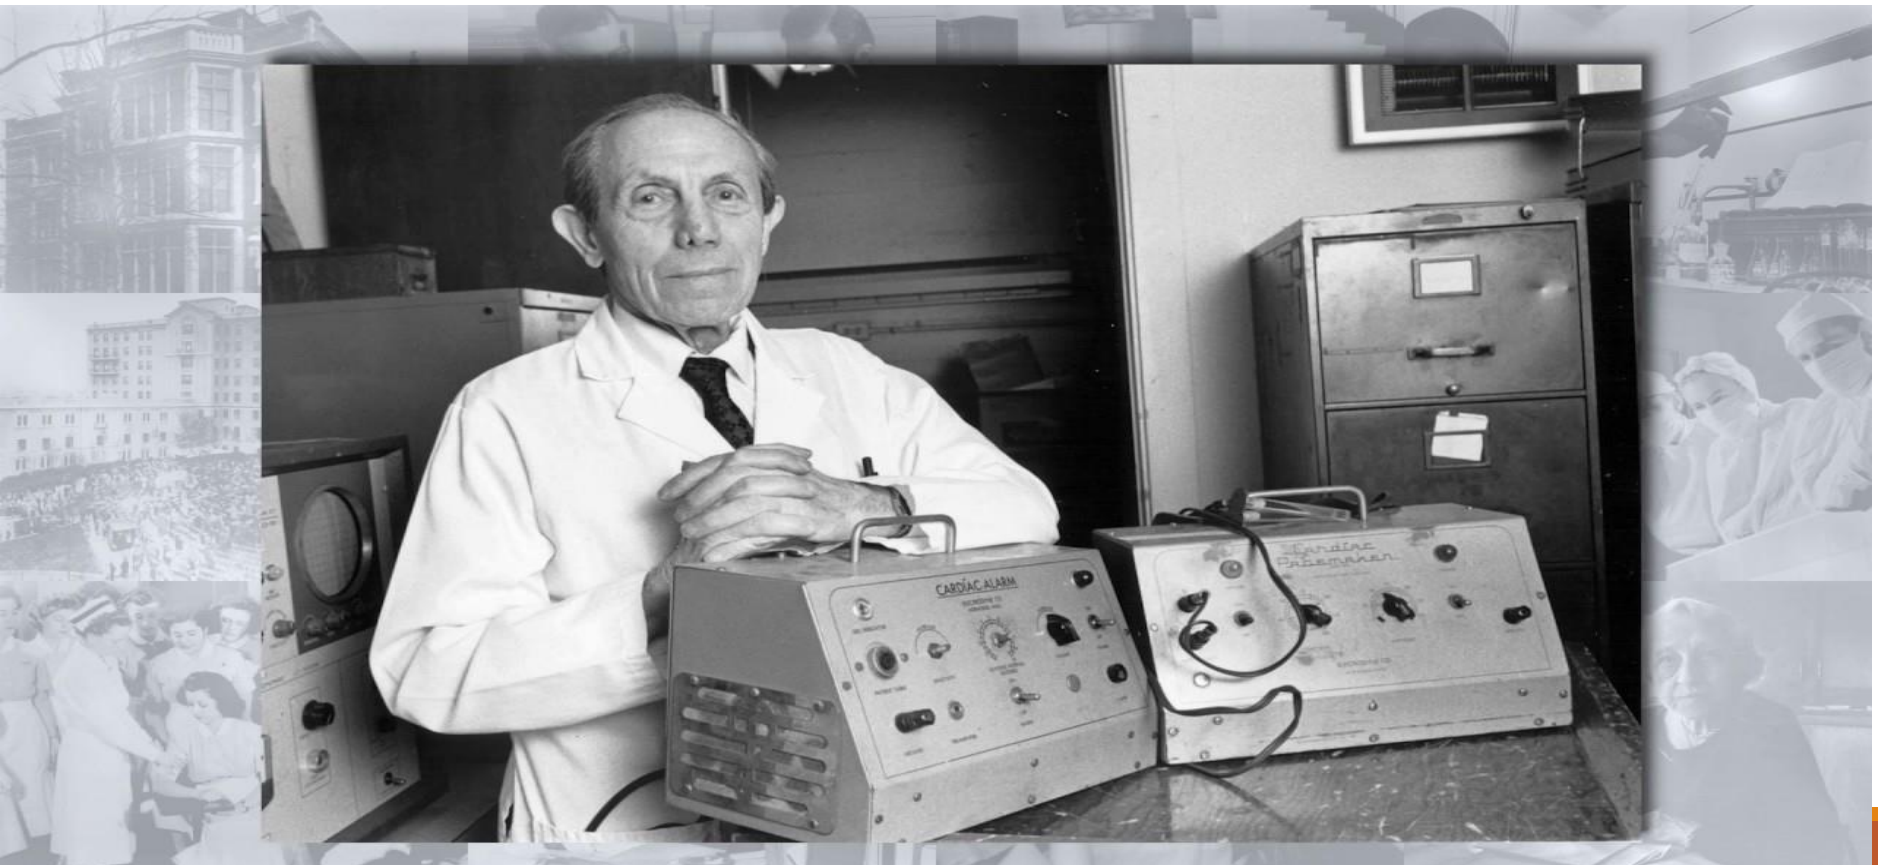

Joseph Wilson Swan was a British physicist and inventor who is known for creating the first successful light bulbs

two inventors eventually joined forces and formed Edison-Swan United, which became one of the world's largest manufacturers of light bulbs

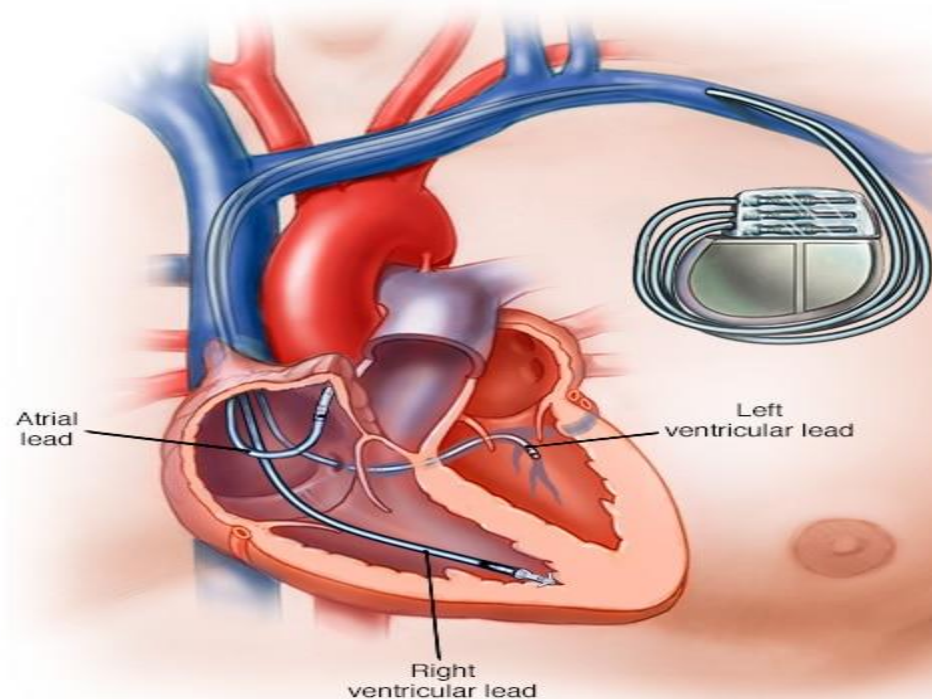

Edison realized that the problem with Swan's design was the filament. A thin filament with high electrical resistance would make a lamp practical because it would require only a little current to make it glow.

He demonstrated his light bulb in December 1879

What did cardiologist Dr. Paul Zoll invent in Massachusetts in 1952?

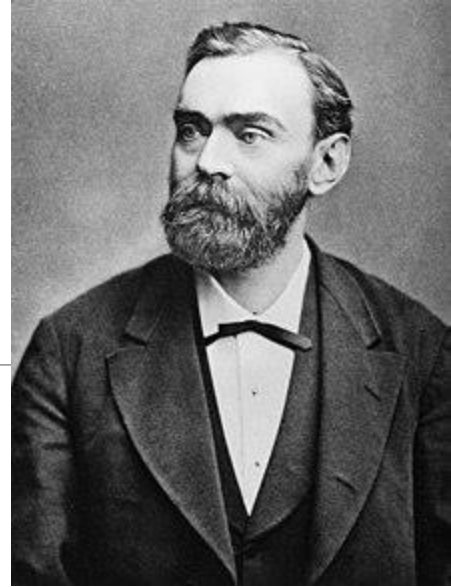

Pacemaker

Thomas Lewis, a father of modern cardiology.

Who invented Dynamite?

Alfred B. Nobel

- ❑ Swedish
- ❑ The synthetic element nobelium was named after him
- ❑ He owned Bofors
- ❑ he bequeathed his fortune to institute the Nobel Prize

In 1888, Alfred's brother, Ludvig, died while visiting Cannes, and a French newspaper mistakenly published Alfred's obituary.

It condemned him for his invention of military explosives.

On 27 November 1895, at the Swedish-Norwegian Club in Paris, Nobel signed his last will and testament and set aside the bulk of his estate to establish the **Nobel Prizes-allocated 94% of his total assets**

For over 500 years, paper was only available and sold as single sheets. In 1902, an inventive Australian used half size sheets of paper, a bit of glue and cardboard to create the what?

- A. Telephone Book**
- B. Notepad**
- C. Calendar**
- D. Notice Board**

B. Notepad

For whom was high heeled shoes were invented?

- A. King Charles II**
- B. King Louis the XIV**
- C. Cleopatra**
- D. Queen Elizabeth I**

King Louis the XIV

B

What did Elmer A. Sperry invent ?

- A. Hydraulic turbine
- B. Gyrocompass
- C. Hydroplane
- D. Magnetic compass

Elmer A. Sperry

Gyrocompass

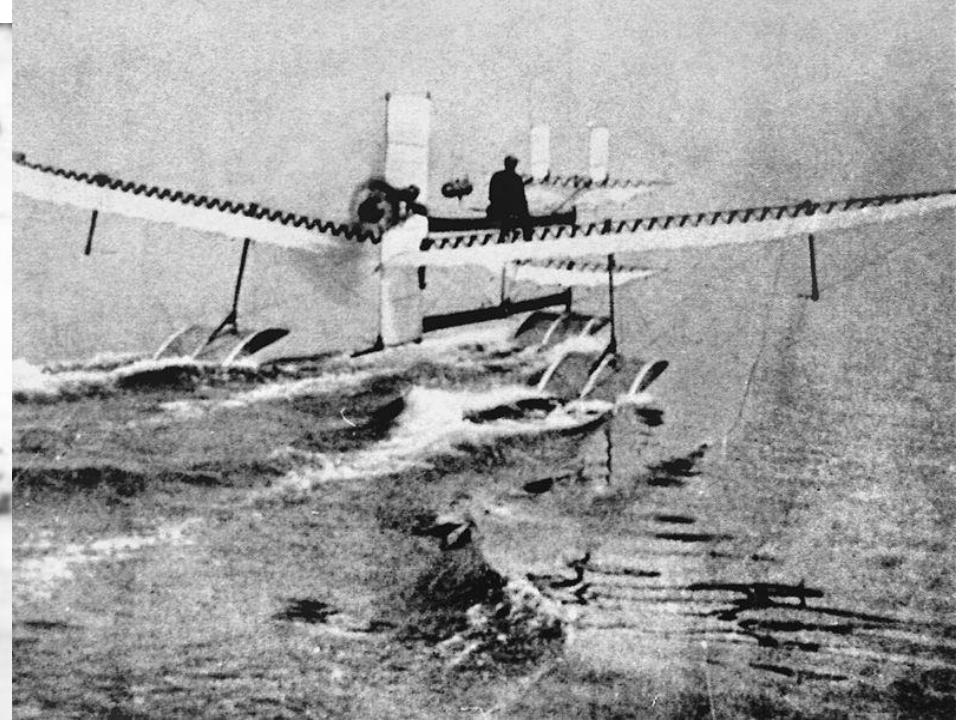

Who invented Hydroplane ?

Henri Fabre

The hydroplane was invented and piloted by **Henri Fabre**, from Marseilles, above the Berre pond, for its maiden flight

He died at the age of 101 as one of the last living pioneers of human flight.

Henri Fabre on Hydroplane
28 March 1910

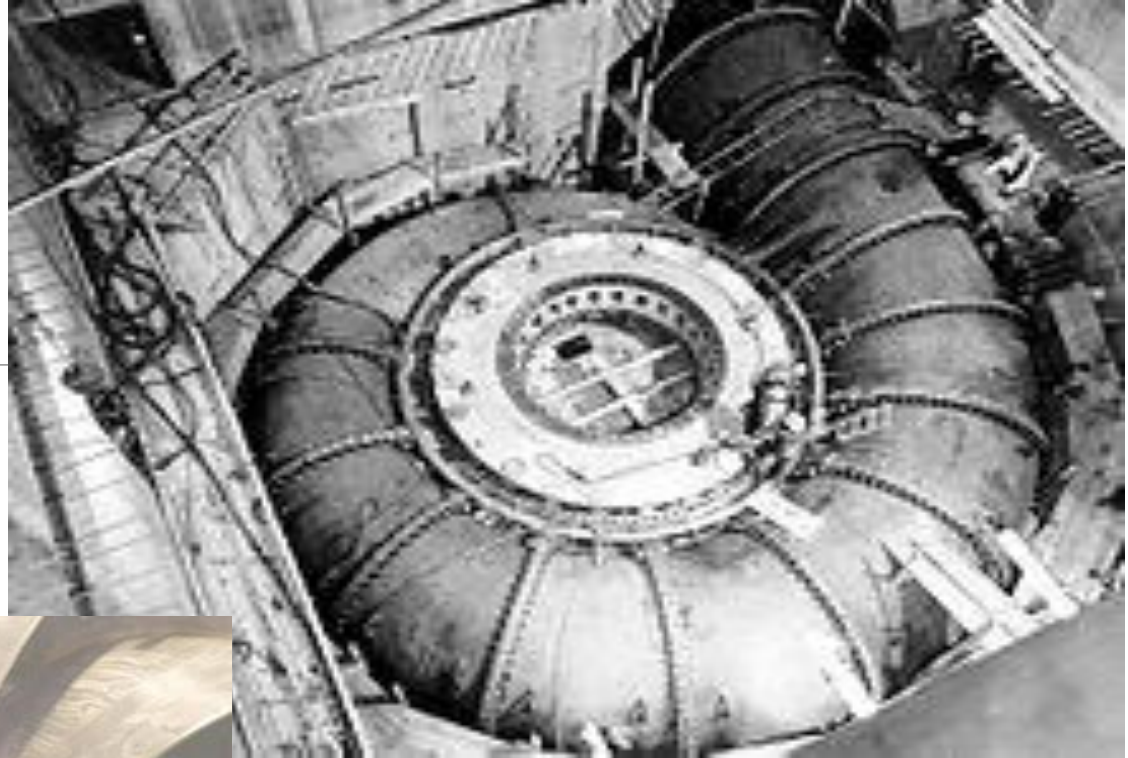

Who invented the Hydraulic turbine

The modern **steam turbine** was invented in 1884 by **Charles Parsons**,

In 1849, British–American **engineer James Francis** developed the first **modern water turbine** – the Francis turbine – which remains the most widely-used water turbine in the world today

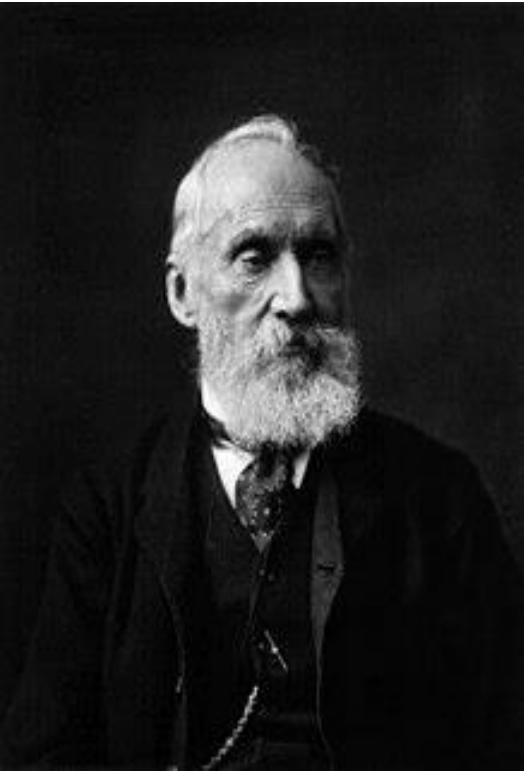

Francis turbines

Who invented Magnetic
compass ?

William Thomson, 1st Baron Kelvin

The first compasses were made of lodestone, a naturally magnetized stone of iron, in Han dynasty China

Kelvin Mariner's Compass

CORN FLAKES - Who made them first?

A.Kellogg

B.Nabisco

C.Archers

D.Quaker

John Harvey
Kellogg

Who synthesized the first wholly artificial gene?

A.J.J. Thompson

B. Hargobind Khorana

C. Meghnad Saha

D. Benjamin Franklin

A solid orange horizontal bar at the bottom of the slide.

Hargobind Khorana

Indian American biochemist

he shared the **1968 Nobel Prize for Physiology or Medicine** with Marshall W. **Nirenberg** and Robert W. **Holley** for research that showed the order of nucleotides in nucleic acids, which carry the **genetic code of the cell** and control the cell's synthesis of proteins

Who is associated with
discovery of the electron ?

J.J.Thomson was awarded the 1906 Nobel Prize in Physics for his work on the conduction of electricity in gases.

British physicist and Nobel Laureate in Physics, credited with the discovery of the electron, the first subatomic particle to be discovered.

Who invented the lightning rod, bifocals, and the Franklin stove ?

Benjamin Franklin

- ❑ One of the foremost of the Founding Fathers, Franklin **helped draft the Declaration of Independence** and was one of its signers, represented the United States in France during the American Revolution, and was a delegate to the Constitutional Convention.
- ❑ He made important contributions to science, especially in the understanding of electricity
- ❑ earned the title of "The First American"

It travels over land and water. Who invented the
HOVERCRAFT?

A.C. Cockerell

B.S. Sperrow

C.O. Stricheg

D.T. Henman

A hovercraft, also known as an air-cushion vehicle or ACV,

Christopher Cockerell, English engineer (Cockerell workshop)

FROZEN FOOD - Who discovered the first practical method of freezing food?

A.F. Rozenosh

B.C. Birdseye

C.R. Scott

D.G. Findu^s

Clarence Birdseye

founder of the modern frozen
food industry.

What did Karl Benz invent ?

A. Streetcar

B. Gasoline powered automobile

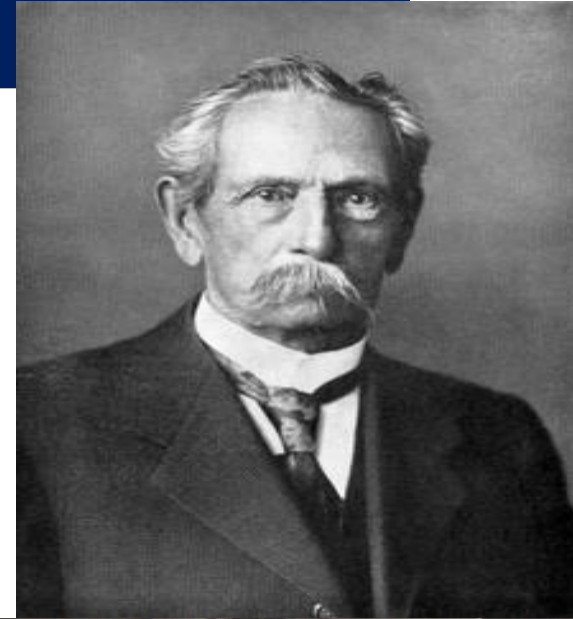

C. Steam turbine

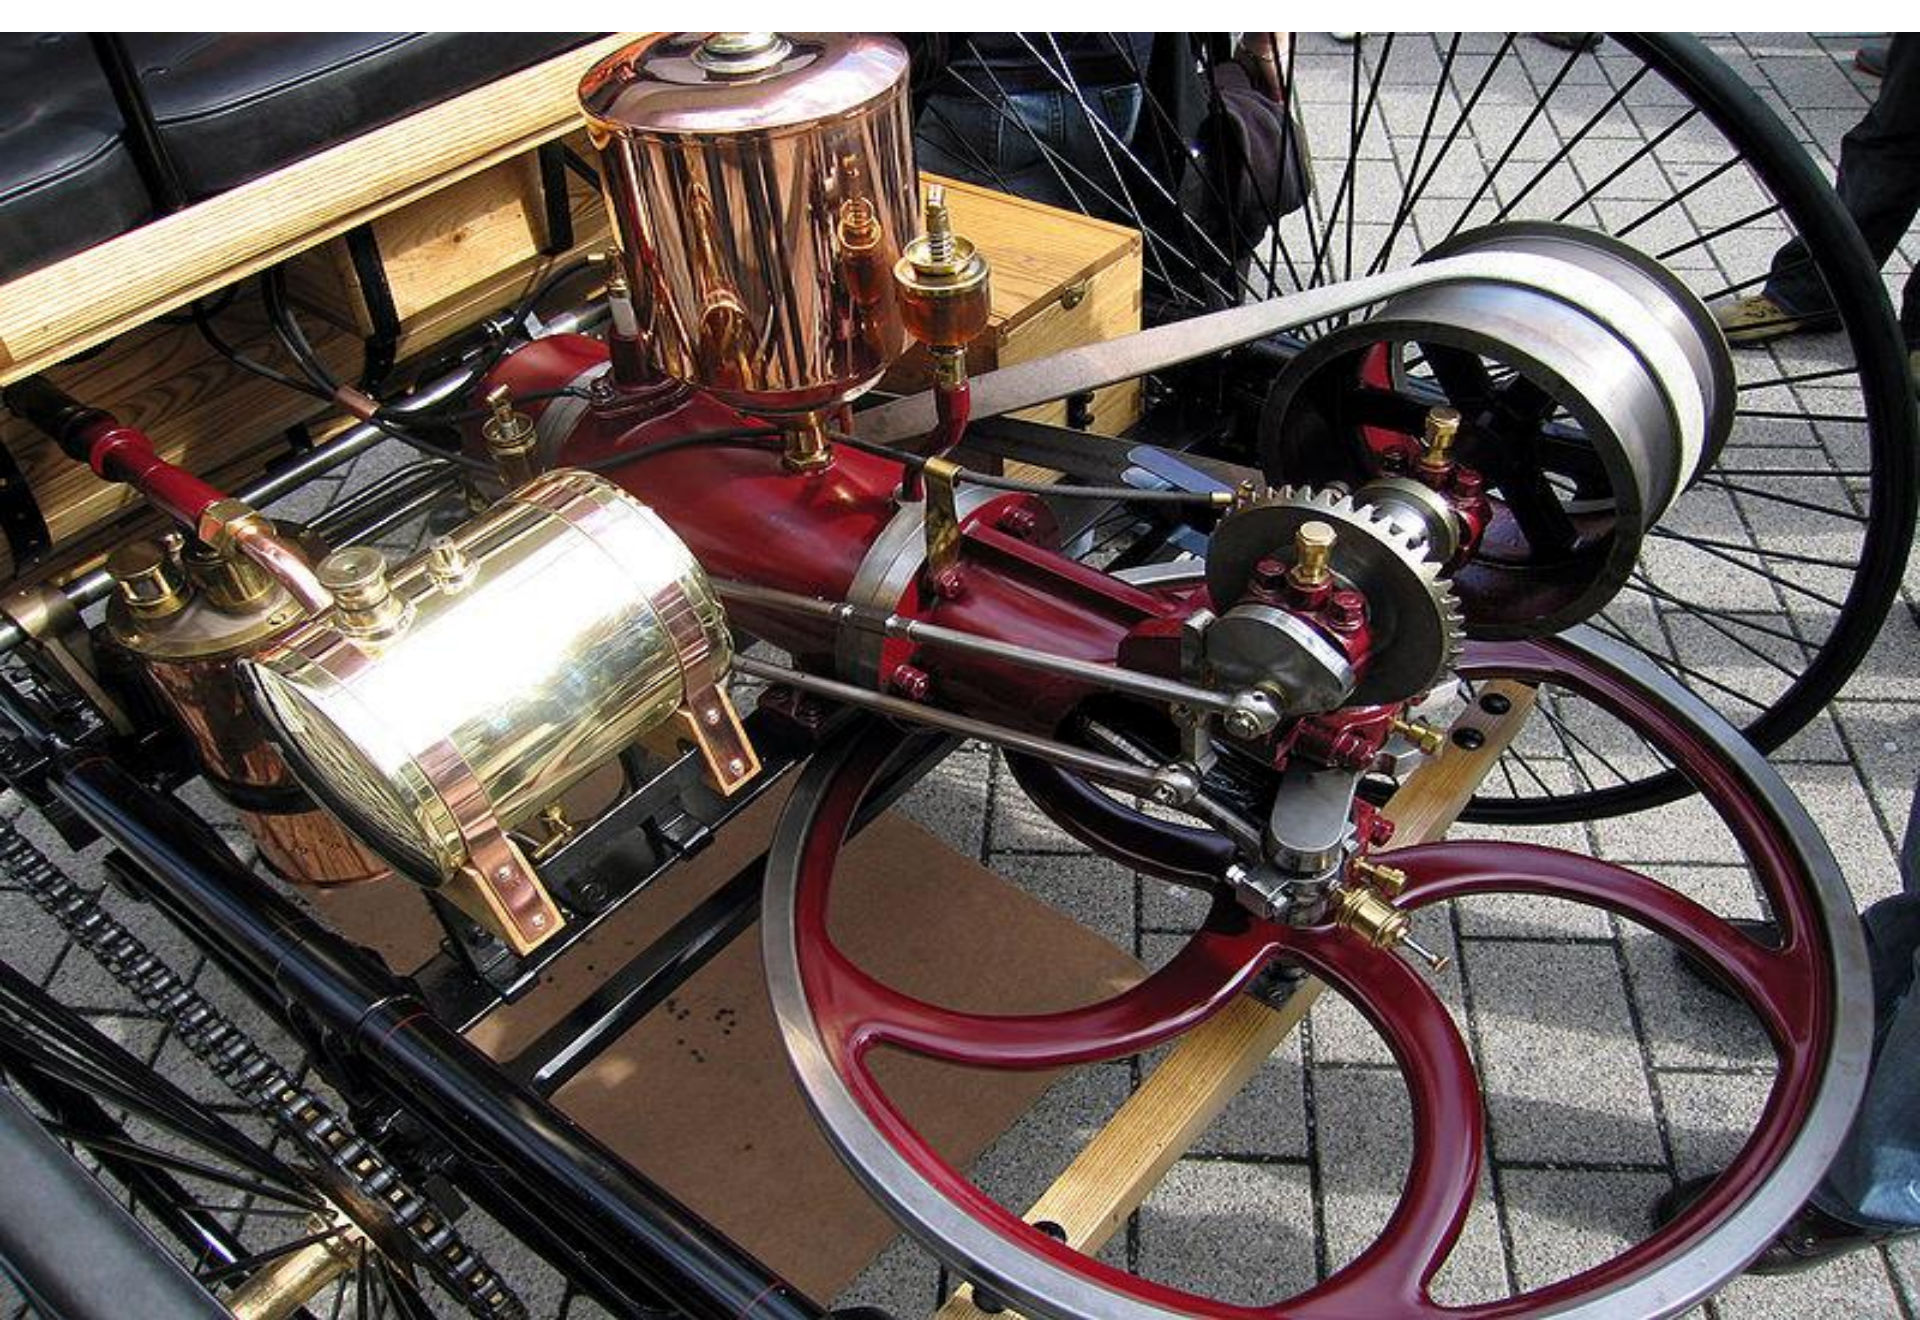

D. Glider

A solid orange horizontal bar at the bottom of the slide.

In 1885, Karl Benz developed a petrol or **gasoline-powered automobile**. This is also considered to be the first "production" **vehicle** as Benz

B. Gasoline powered automobile

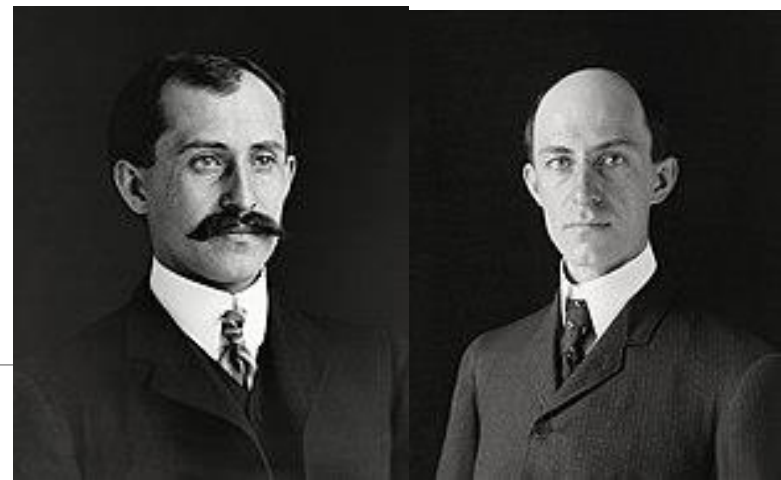

Engine of the Benz Patent Motorwagen

Who invented the first controllable flying AEROPLANE (AIRPLANE)?

- A.**West Brothers
 - B.**Wright Brothers
 - C.**Lidenbergh Brothers
 - D.**South Brothers
- 
- A solid orange horizontal bar at the bottom of the slide.

^B Wright Brothers

Other names

Will and Orv
The Bishop's boys

Inventing, building, and flying the world's first successful motor-operated airplane, the *Wright Flyer*

Wright Brothers 4-Cylinder Water-Cooled Vertical Engine

Bore	4 3/8 inches	HP	28 - 42
Stroke	4 inches	RPM	1325 - 1500
Displacement	240 cubic inches	Weight	160 - 180 pounds

Engine #17

Circa 1910

What did Frank Whittle invent ?

A.Ethyl gasoline

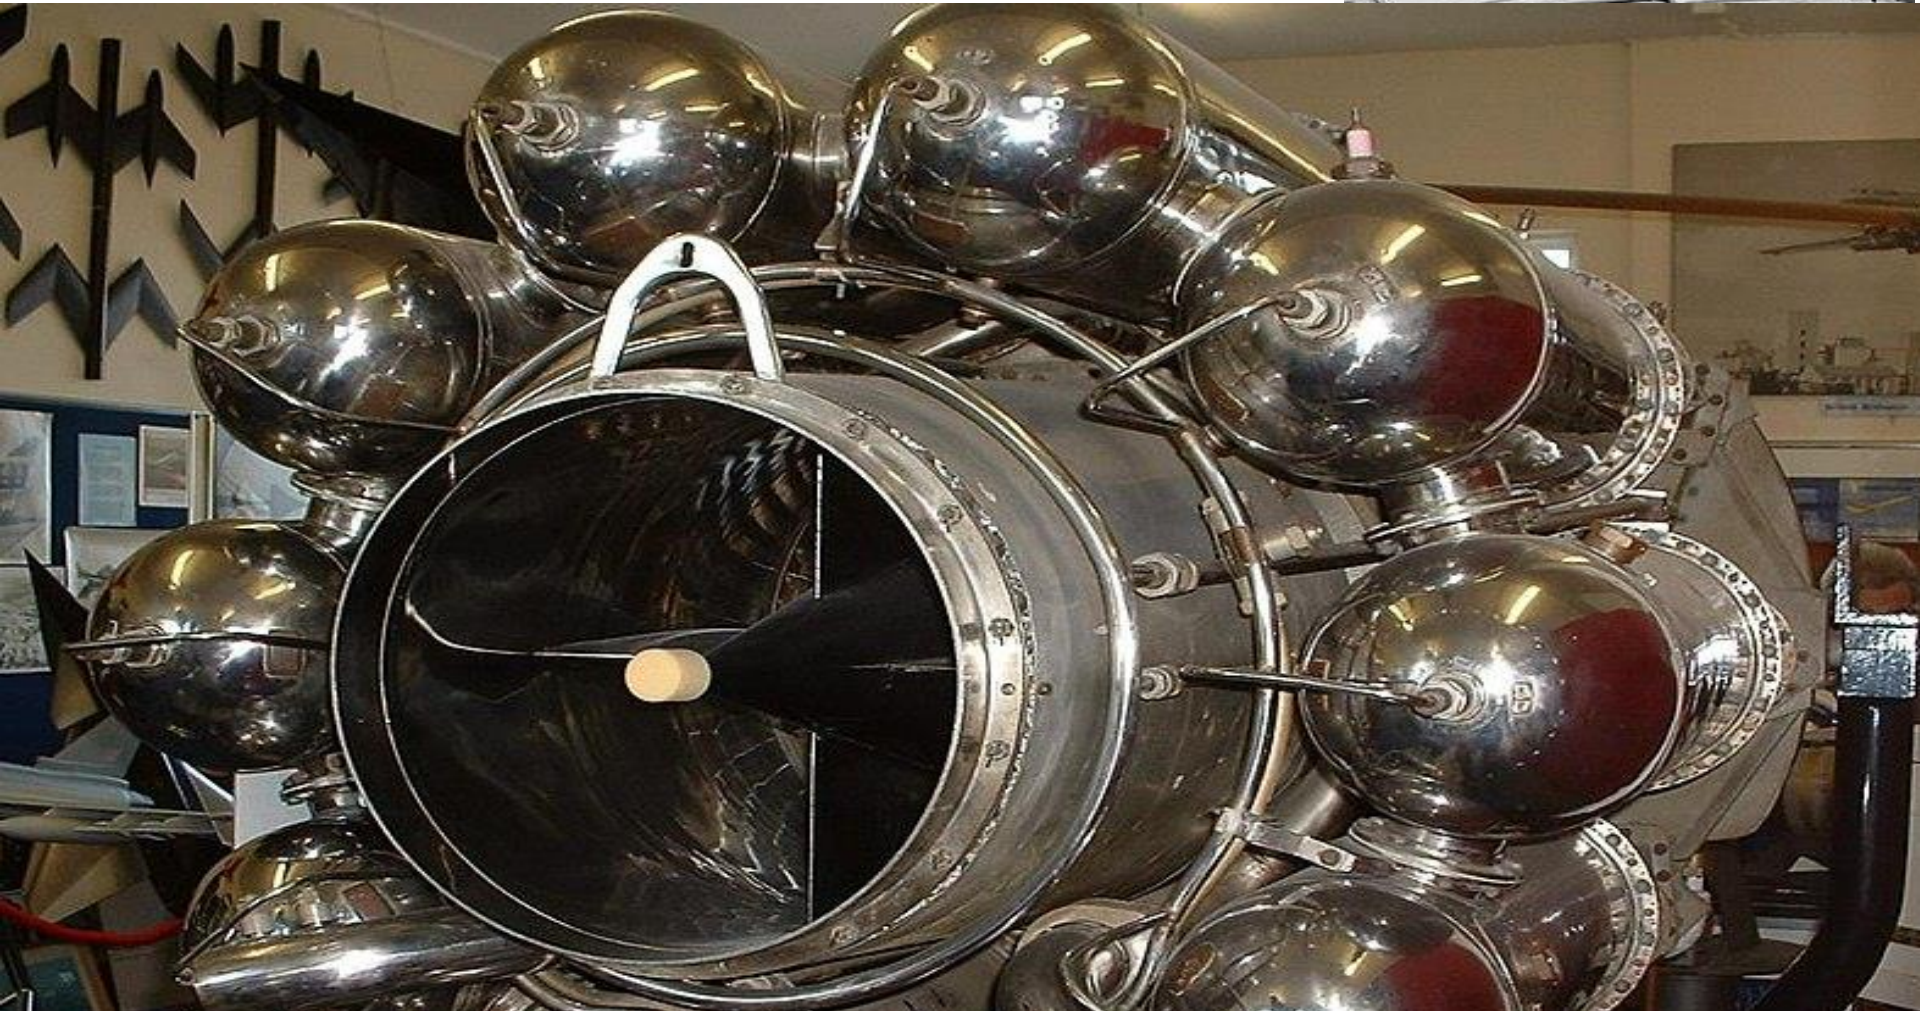

B.Radar

C.Jet propulsion

D.Sonar

A solid orange horizontal bar at the bottom of the slide.

He is credited with single-handedly
inventing the turbojet engine.

What did Sir Isaac Newton invent ?

- A.Spectacles
- B.Reflecting telescope
- C.Chronometer
- D.Microscope

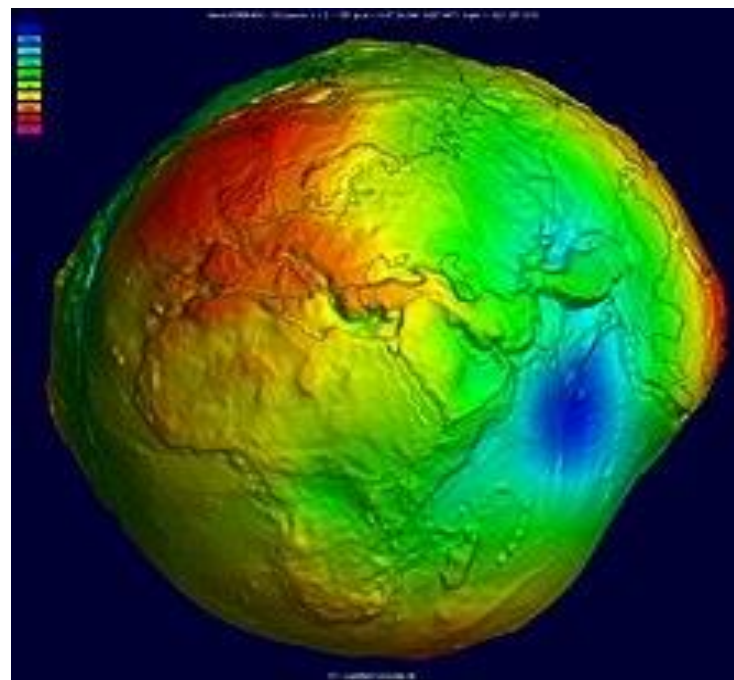

Reflecting telescope

- Newtonian mechanics
- Universal gravitation
- Calculus
- Newton's laws of motion
- Optics
- Binomial series
- *Principia*
- Newton's method

English mathematician, physicist, astronomer, theologian, and author.

His book *Philosophiæ Naturalis Principia Mathematica* (*Mathematical Principles of Natural Philosophy*), first published in 1687
Newton's inferred that the Earth is an oblate spheroid

THE ROYAL SOCIETY

In which decade was the telegraph invented?

A.1890s

B.1810s

C.1840s

D.1870s

Samuel F. B. Morse electrically transmitted his famous message 'What hath God wrought?' from Washington to Baltimore on May 24, 1844

Dr. David Alter is credited with having invented:

1836 - the electric telegraph, predating the Morse telegraph in 1837

C 1840s
David Alter

Samuel Morse code

Marconi's equipment on Flat Holm, May 1897

Railway telegraph

Who invented Bicycle?

A.Karl Benz

B.Leo H Baekeland

C.Kirkpatrick Macmillan

D.Evangelista Torricelli

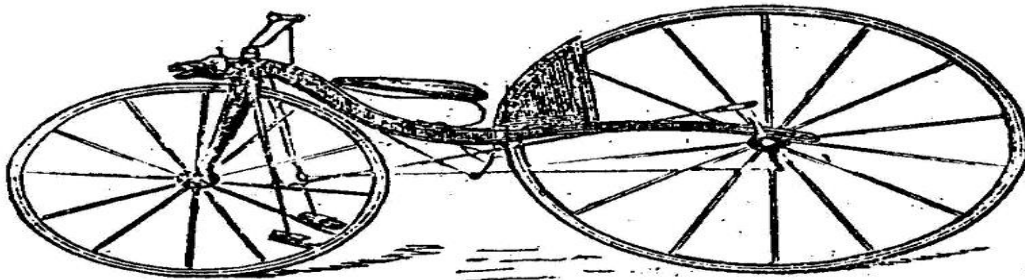

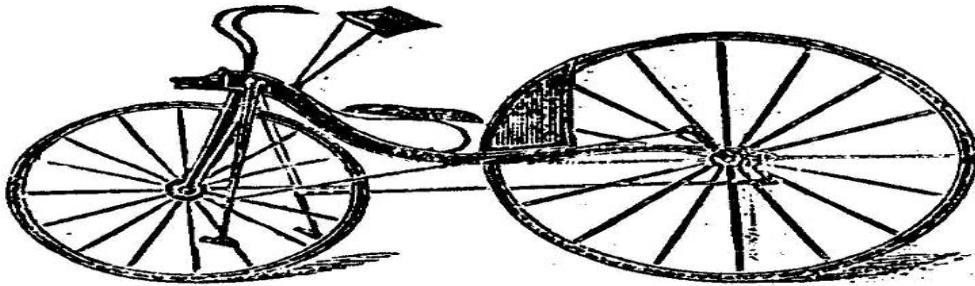

A solid orange horizontal bar at the bottom of the slide.

C

Kirkpatrick

Macmillan

Scottish blacksmith
credited with inventing the pedal driven bicycle.

**This English inventor is known
as the 'Father of Computing.'**

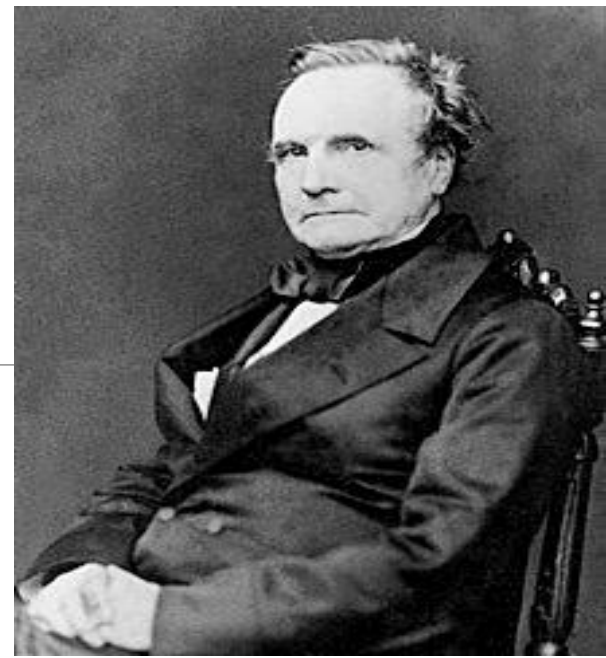

A.Charles Babbage

B.Philo Farnsworth

C.J. Presper Eckert

D.John Mauchly

A solid orange horizontal bar spanning the width of the slide at the bottom.

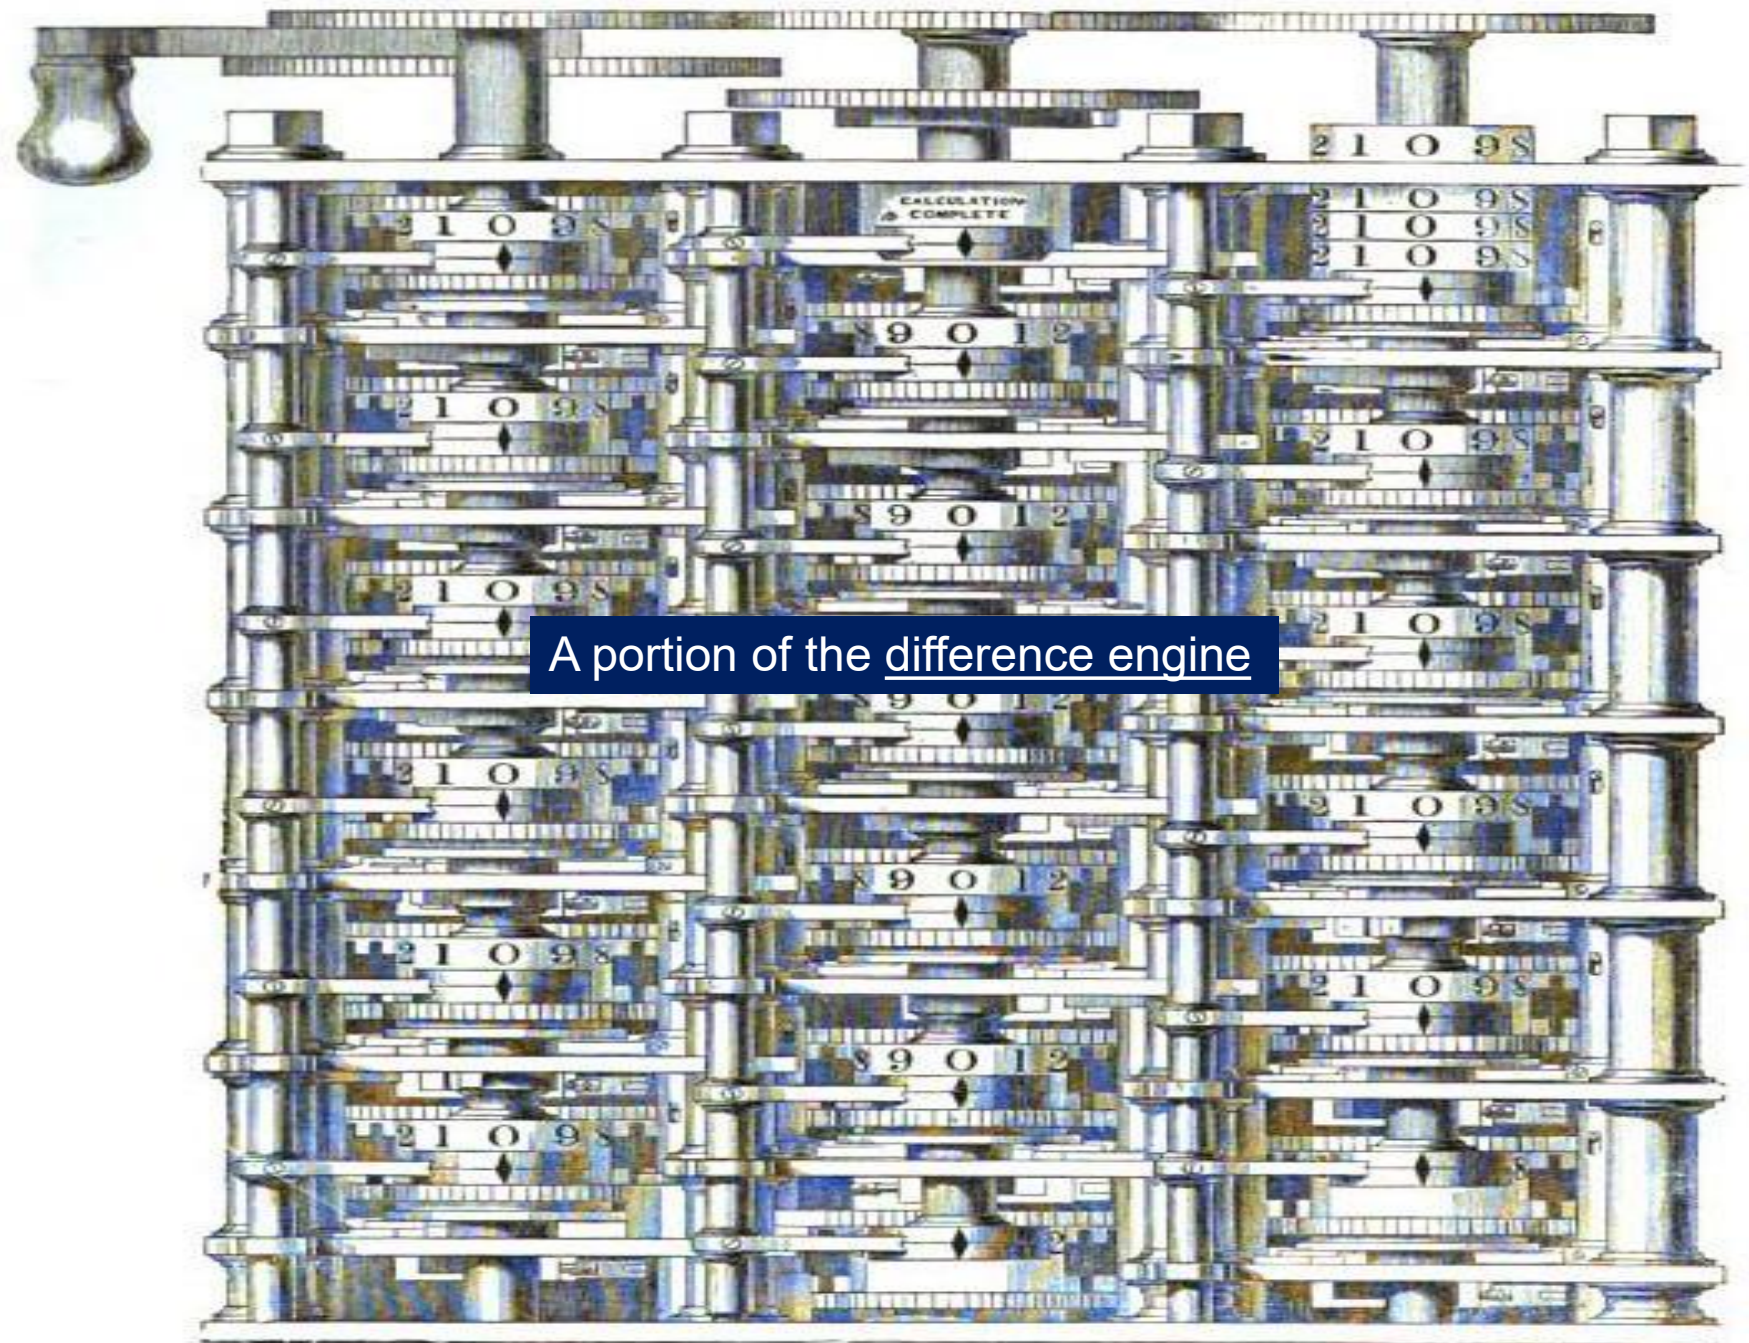

Charles Babbage

English polymath (a person of wide knowledge or learning.)

A mathematician, philosopher, inventor and mechanical engineer, Babbage originated the concept of a digital programmable computer.

"father of the computer"

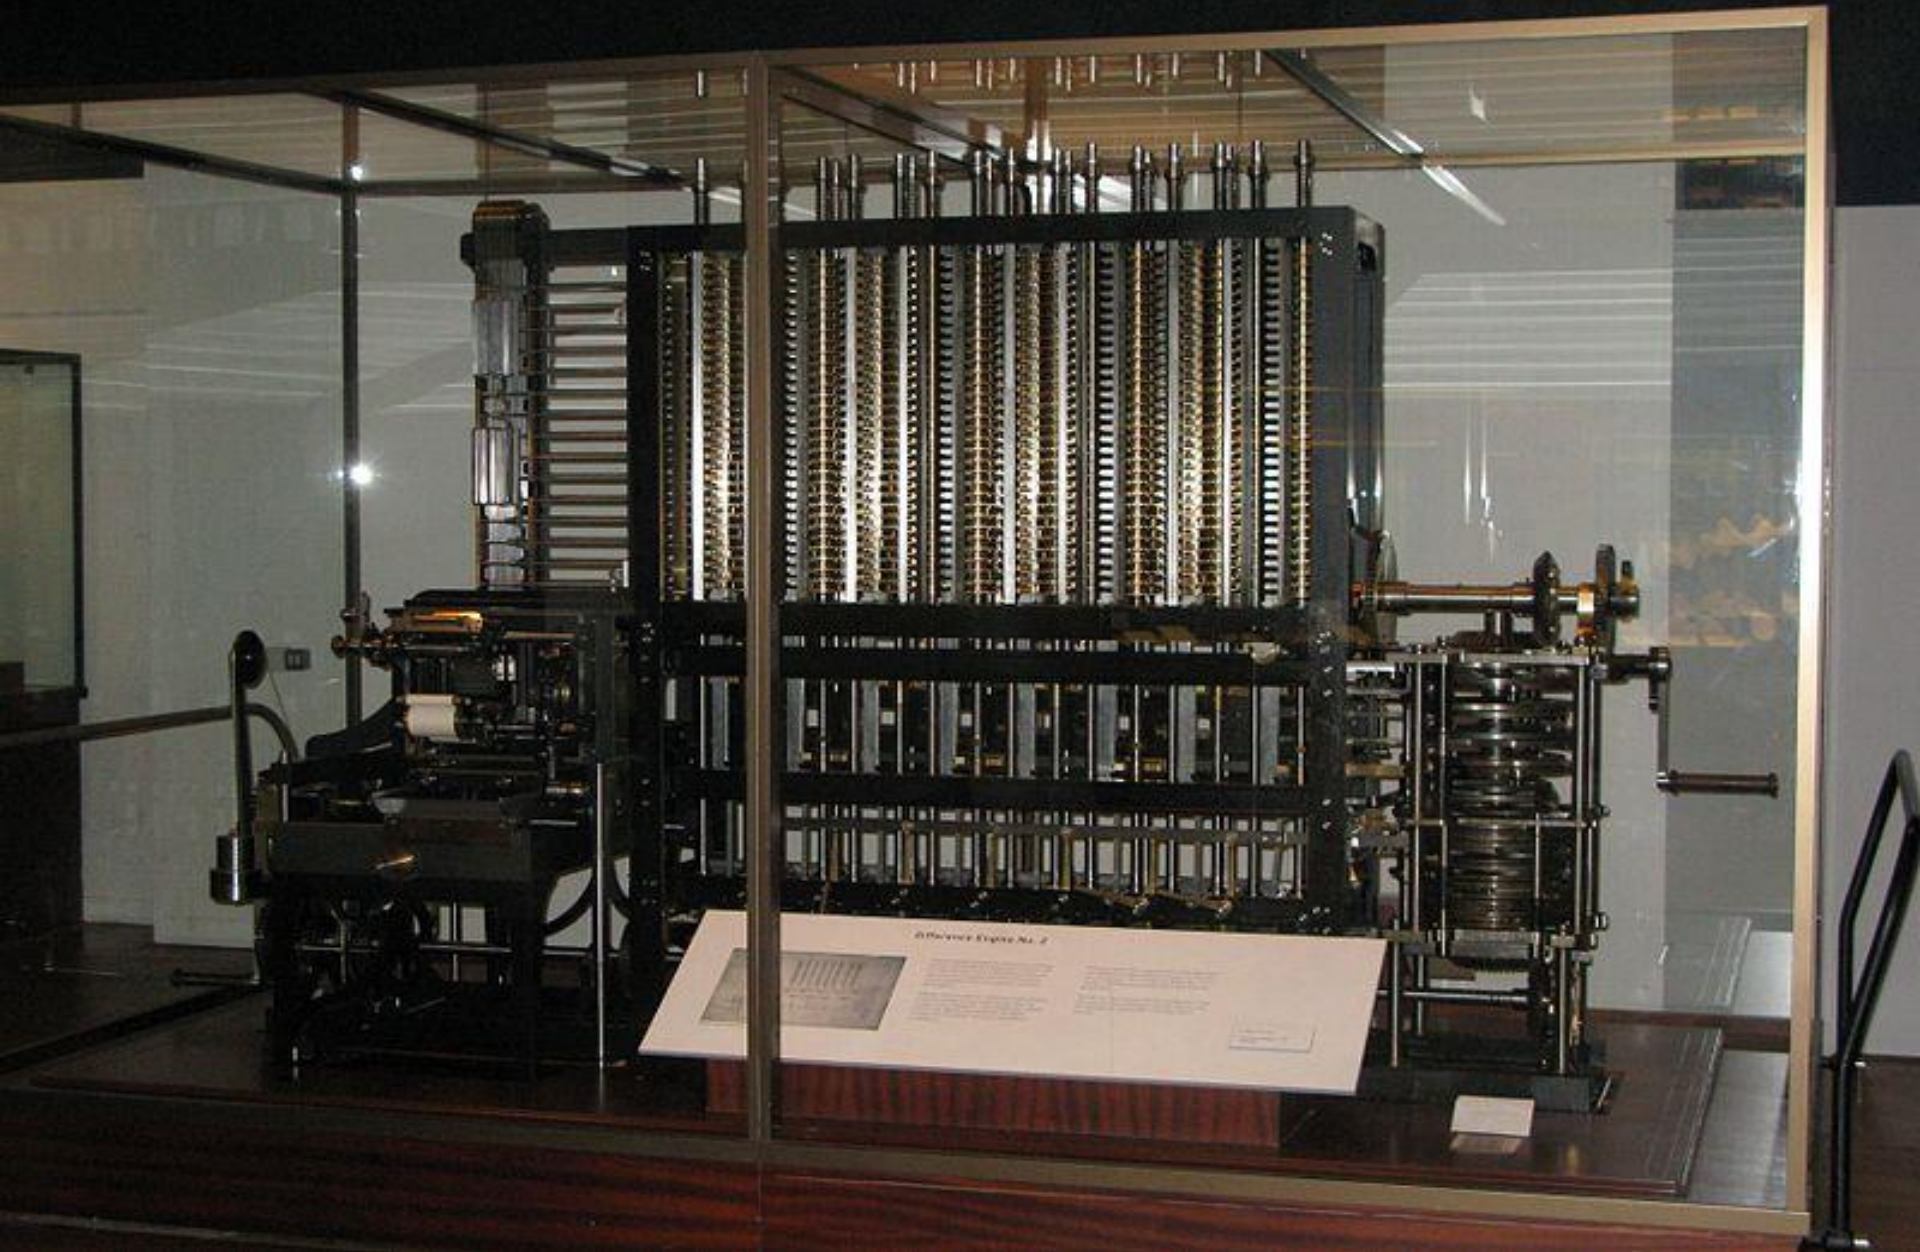

Invented the first mechanical computer -
Babbage's Analytical Engine

A portion of the difference engine

Part of Charles Babbage's Difference Engine (#1), assembled after his death by his son, Henry Prevost Babbage (1824–1918)

The Science Museum's Difference Engine No. 2, built from Babbage's design

What item, originally called the 'Whirlwind', was invented by Ives McGaffey in 1869?

- A. Vacuum cleaner**
- B. Blender**
- C. Electric mixer**
- D. Washing machine**

Vacuum cleaner

American **inventor James Spangler** sold his idea for an electric broomstick-like **cleaner**—with cloth filter and dust-collection bag attached to the long handle—to William Hoover in 1908. His **invention** proved to be arguably the first truly practicable domestic **vacuum cleaner**

In which decade with the first transatlantic radio broadcast occur?

A.1860s

B.1870s

C.1850s

D.1900s

Italian physicist and radio pioneer Guglielmo Marconi succeeds in sending the first radio transmission across the Atlantic Ocean

D

1900s

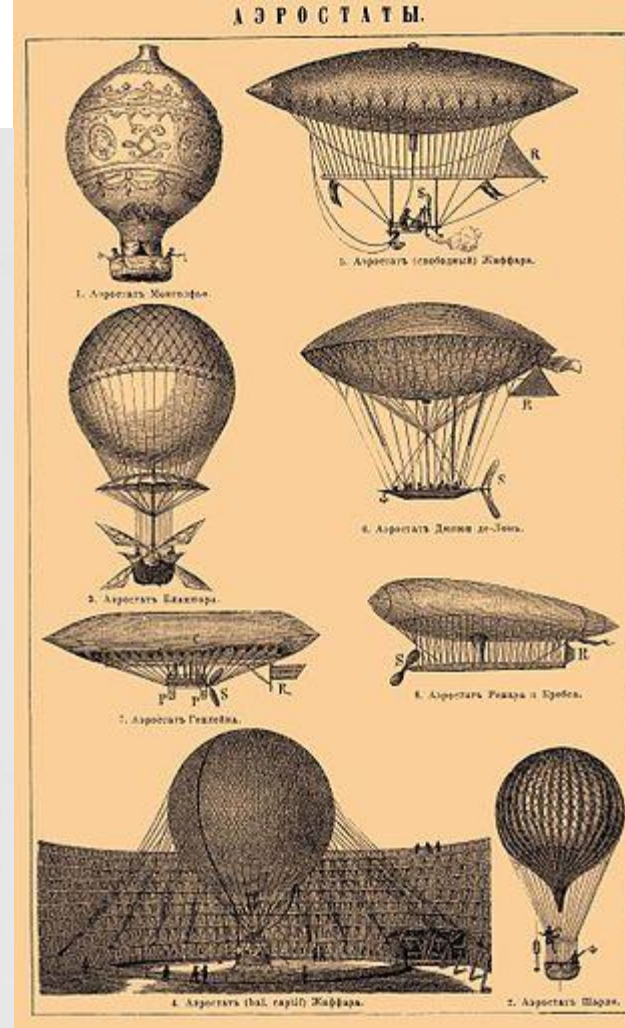

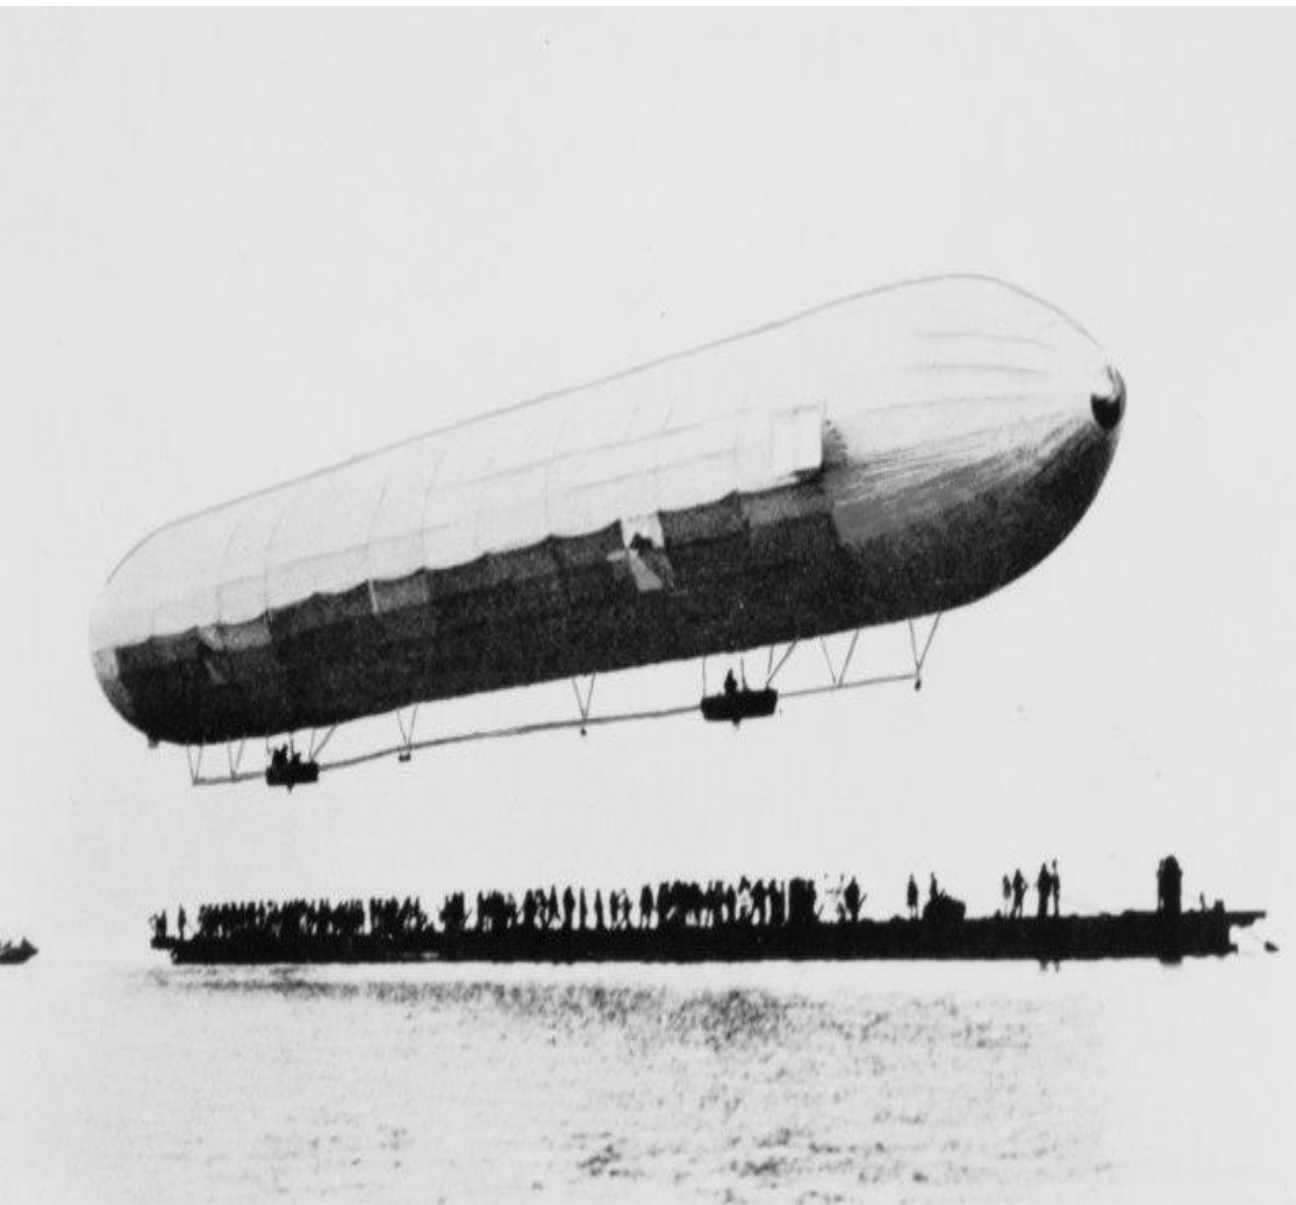

The message—simply the **Morse-code** signal for the letter “s”—traveled more than 2,000 miles from Poldhu in Cornwall, England, to Newfoundland, Canada

The first West-East transatlantic radio transmission was recorded **on 5 December 1902 between Glace Bay and Poldhu**. The frequency was about 182 kHz.

**Who invented Airship
(rigid)?**

G. Ferdinand Von Zeppelin

Ferdinand Von Zeppelin

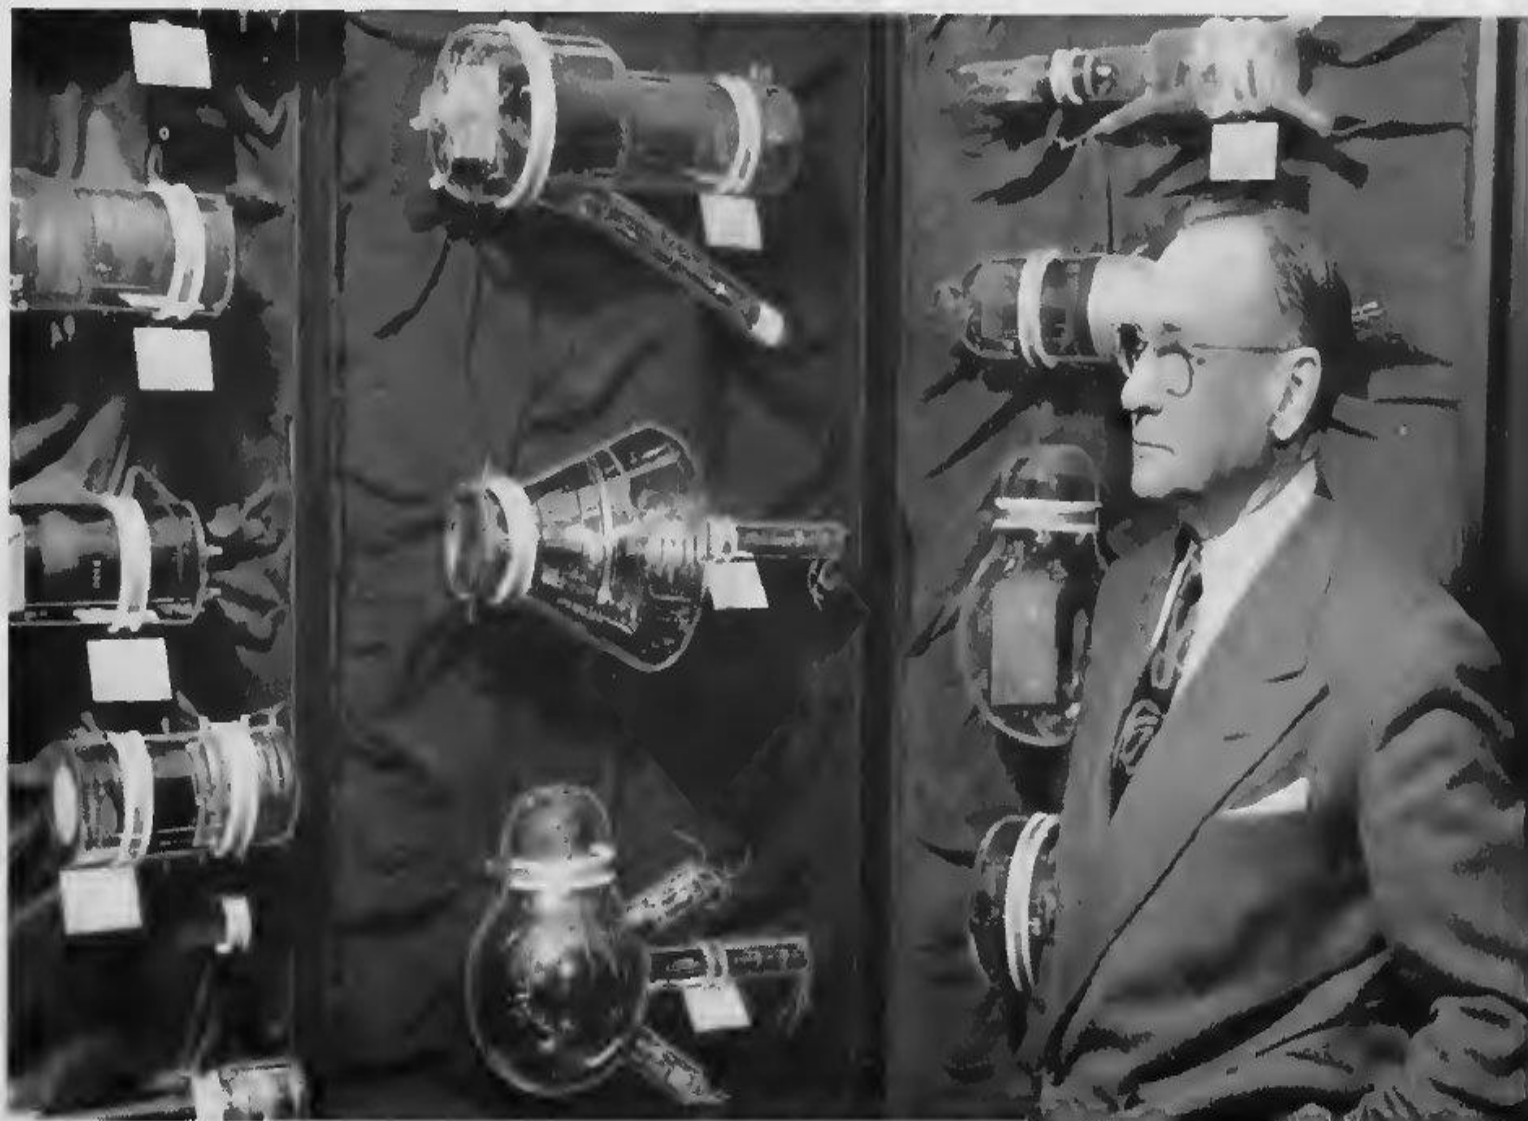

**In the 1700s, who would pay
the postage fee for letters
before the stamp was invented?**

.

The receiver of the letter

**What invention is credited
to the Russian born
American inventor Vladimir
Kosma Zworykin?**

Television

Vladimir Kosma Zworykin

**Who invented
Electric Generator?**

Michael Faraday

Michael Faraday

an English scientist who contributed to the study of electromagnetism and electrochemistry

His inventions of electromagnetic rotary devices formed the foundation of electric motor technology, and it was largely due to his efforts that electricity became practical for use in technology

Albert Einstein kept a picture of Faraday on his study wall, alongside pictures of Isaac Newton and James Clerk Maxwell

Faraday's law of induction

Electrochemistry

Faraday effect

Faraday cage

Faraday constant

Faraday cup

Faraday's laws of electrolysis

Faraday paradox

Faraday rotator

Faraday-efficiency effect

Faraday wave

Faraday wheel

Lines of force

Rubber Balloon

**What did George
Pullman invent ?**

Sleeping (railway) car

Benjamin Franklin was a prolific inventor.

He invented the lightning rod, the Franklin stove, studied electricity, discovered the Gulf Stream, started the first library, and on and on.

Among his many other inventions, what instrument did he invent?

- . glass armonica

glass armonica

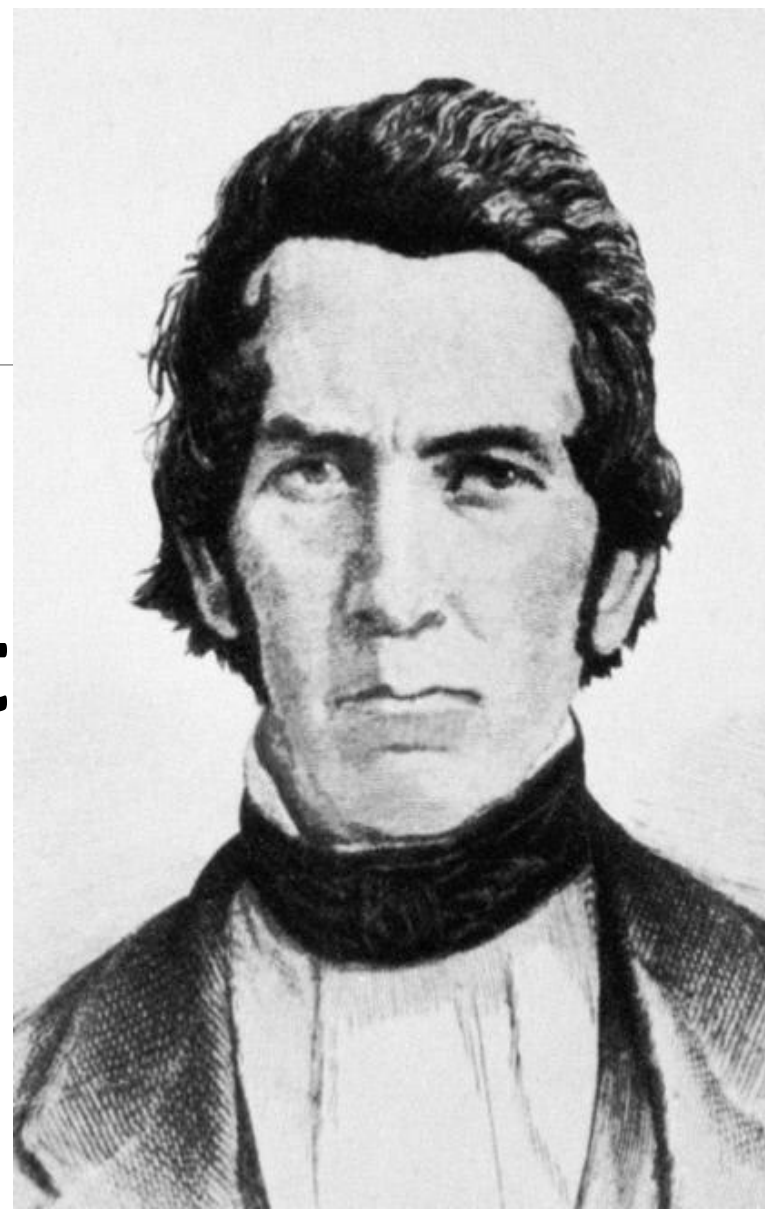

**What device for new parents
did Ann Moore invent in 1969?**

.

Infant carrier

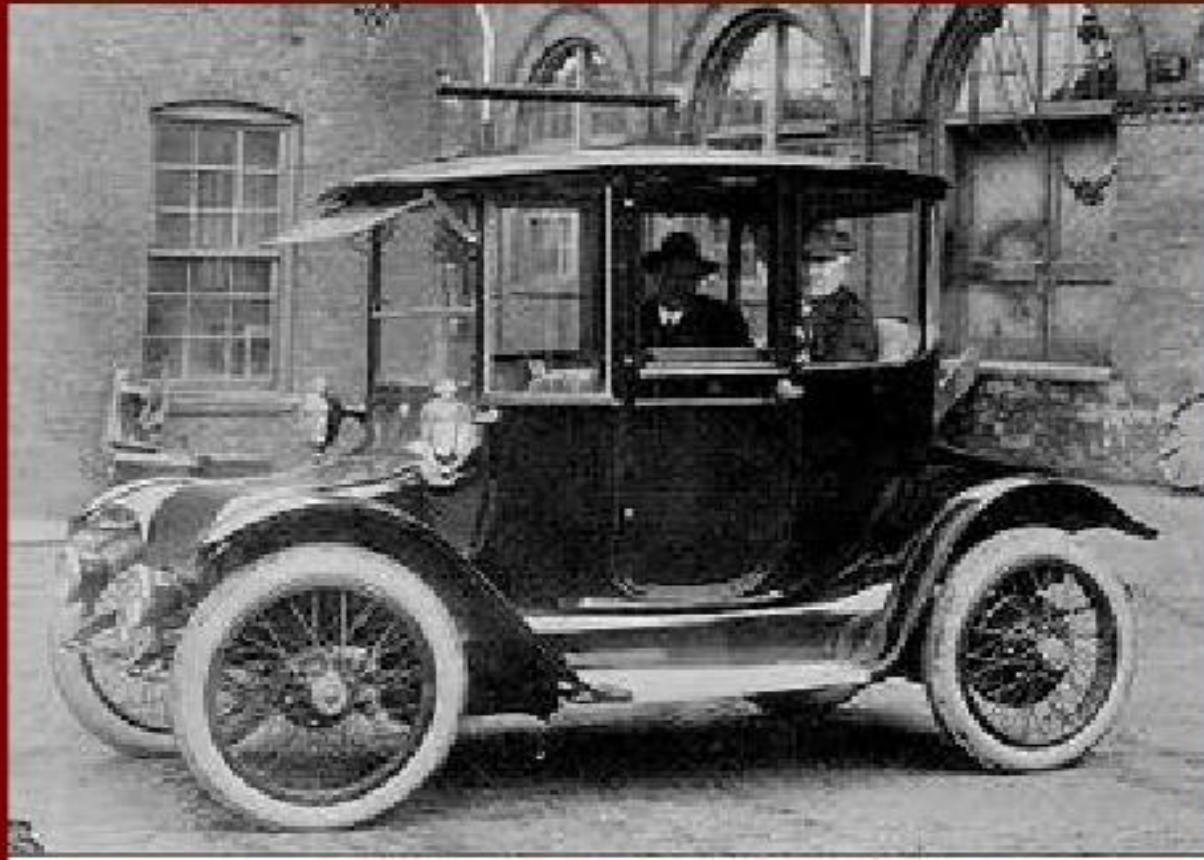

**What did
Thomas Davenport
invent ?**

Electric streetcar

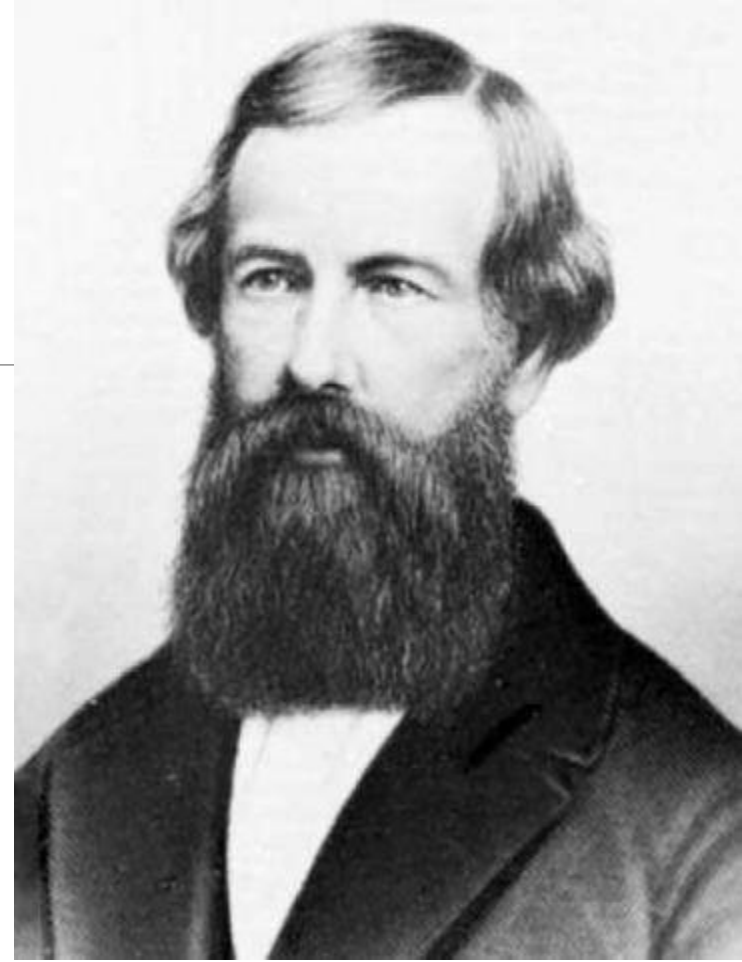

Thomas Davenport's Electric Car

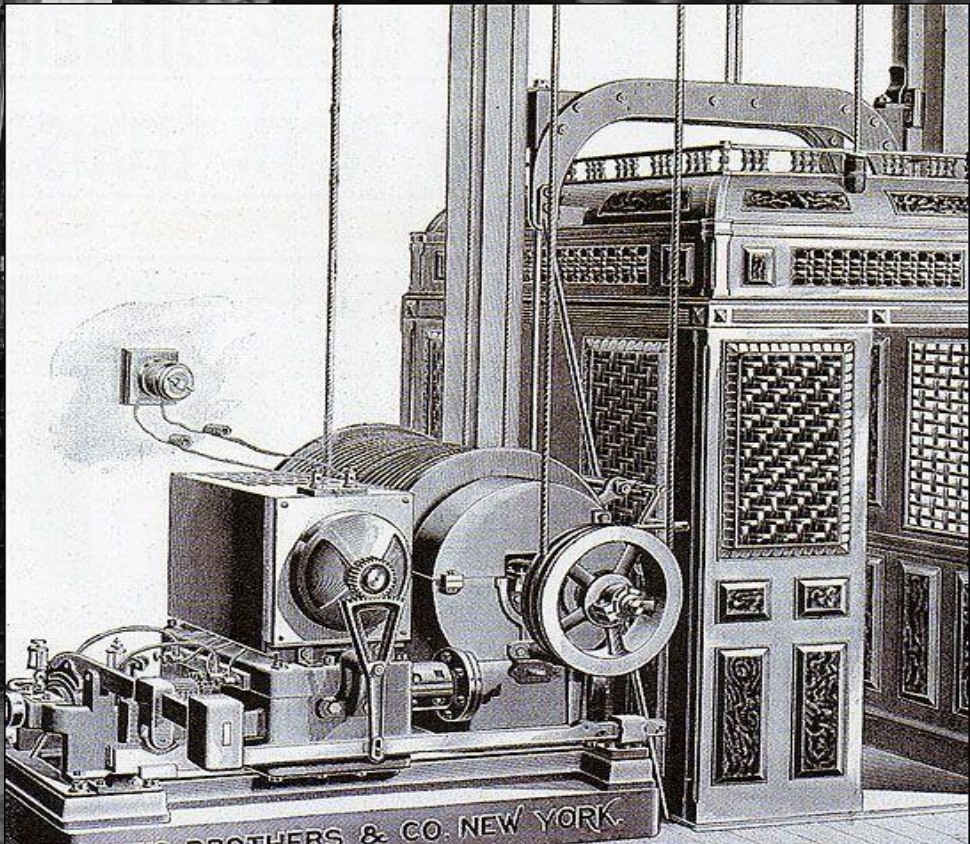

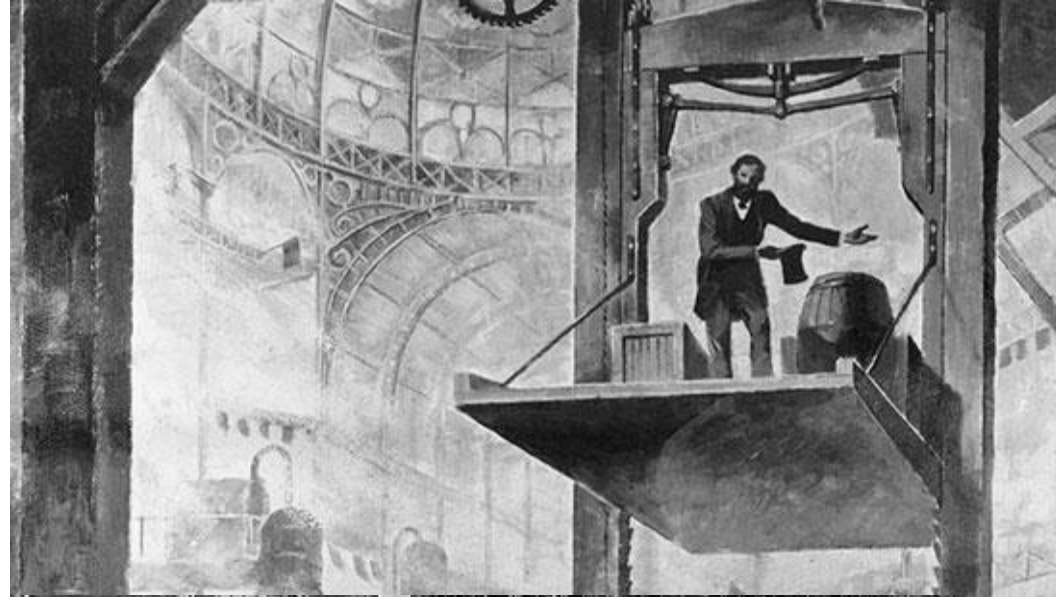

Electric streetcar

**What did Elisha
Otis
invent?**

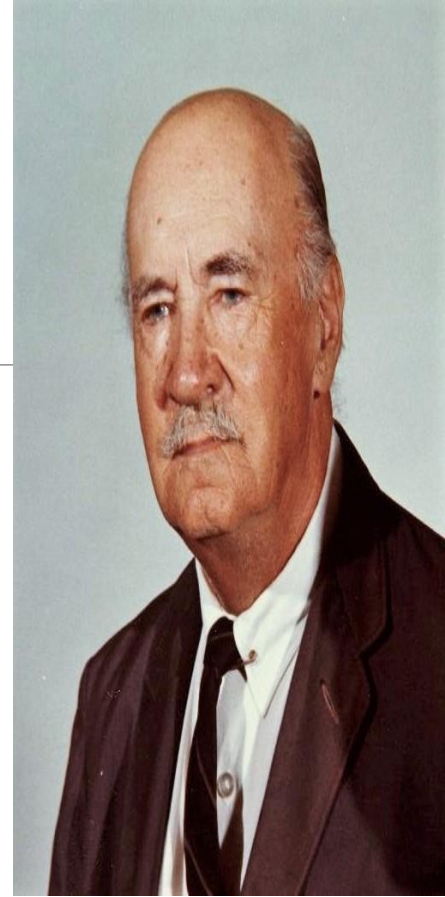

Hydraulic Crane

What did Igor Sikorsky invent ?

-

**helicopters and fixed-wing
aircraft**

**developed the first of Pan
American Airways' ocean-
crossing flying boats in the 1930s**

Helicopter

**What drink was invented
by Charles Leiper Grigg in
1929?**

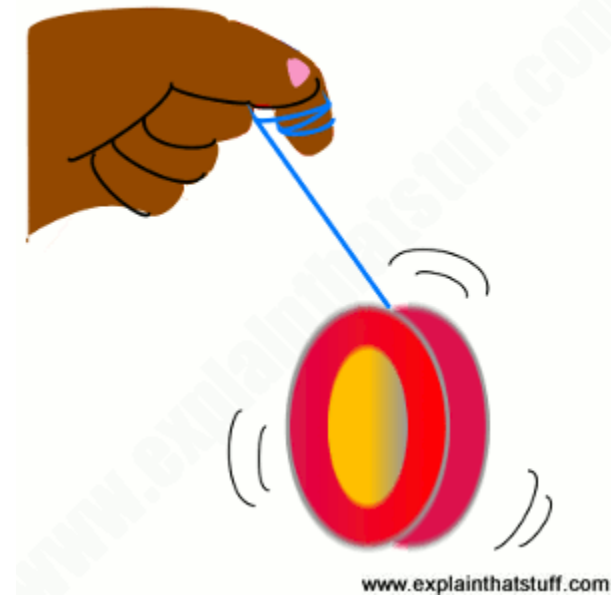

B

7 Up

Where was the yo-yo invented?

-

Philippines

**Who invented optical
fibre?**

Narinder Kapany

**Who invented
Radar?**

A. H. Taylor and Leo C. Young

**Who produced the
first automobile ?**

Karl Benz

**Who was associated
with the creation
of Pentium Chip ?**

Vinod Dham

**Who invented the
video-tape?**

Charles Ginsberg

**Who invented
the laser?**

T.H. Maiman

**Which company
invented the transistor
radio ?**

Sony

**Who invented the
polio vaccine
(oral) ?**

Albert Sabin

**Who invented the
“Voice Mail”?**

Gordon Matthews

**Who is the father of
cellular phone ?**

Martin Cooper

first
television

A solid orange horizontal bar spanning the width of the slide at the bottom.

**John Logy
Baird
demonstrated**

penicillin

Alexander Fleming
discovered

polio vaccine

Jonas E. Salk
developed first

**Who is known as
'the Father of
Geometry' ?**

Euclid

**What is the name given to
the outermost “planetoid”
discovered in the Solar
System ?**

Sedna

90377 Sedna, or simply Sedna, is a large **planetoid** in the **outer** reaches of the **Solar System** that was, as of 2020, at a distance of about 85 astronomical units (1.27×10^{10} km; 7.9×10^9 mi) from the Sun, about three times as far as Neptune.

**Who introduced the
use of artificial heart
for surgery ?**

Dr. Vladimir P. Demikhov developed a total artificial heart (TAH) device and executed the first coronary artery bypass surgery and intrathoracic transplantation in the world

**performed the world's
first human-to-
human heart
transplant operation**

Christian Barnard

**Who invented
Radar ?**

A.H. Taylor & Leo C. Young

**Who developed the first
automatic automobile ?**

Henry Ford

**The first thermionic
valve was invented by**

J.A. Fleming

**Gunpowder was
invented by**

Roger Bacon

**For which invention is
Otto Hahn famous?**

**father of nuclear
chemistry**

Atom bomb

**Leprosy bacillus was
invented by**

Robert Koch

**X-rays were
discovered by**

Roentgen

**Who discovered
cement?**

Joseph Aspdin

**Who discovered North
Pole ?**

Robert Peary

**Bacteria was first
discovered by**

A.V. Leeuwenhoek

**Electron microscope
was discovered by**

Knoll and Ruska

**Who invented
penicillin ?**

Alexander Fleming

**Who invented
vaccination for 'Small
Pox'?**

Edward Jenner

**Who invented
chloroform as
anaesthetic?**

James Simpson

**Who invented the
hydrogen bomb?**

Edward Taylor

**Who invented
Cinema?**

Nicolas and Jean Lumiere

**Humidity is
measured by**

Hygrometer

**The computer was
invented by**

Babbage

**Who was the leader of
the team that developed
the ‘Web Browser’
known as Mosaic?**

Marc Anderssen

**Force of deflection
was first discovered by**

Ferrel

**Which of the following
machines was designed
by Charles Babbage?**

Analytical engine

**Insulin was
discovered by :**

F. Banting

**Who discovered
Solar System ?**

Copernicus

**The causative virus of
AIDS was isolated in the
year of**

1983

**Who discovered
electromagnetic
nature of light ?**

Maxwell

**Who is the founder
of quantum theory
of radiation ?**

Plank

**Trie concept of “Green
House Gases” was
postulated by**

Joseph Fourier

**Blood group
was discovered
by :**

Landsteiner

**Who introduced the
concept of “Stored
Program” ?**

A solid orange horizontal bar at the bottom of the slide.

John Von Neumann

**Meteorology is
the science of:**

Weather

**The purity of Milk
is determined by**

Lactometer

**The study of Drugs and
their action is known as**

Pharmacology

**Root pressure
is measured by**

MANOMETE_R

Auxanometer- GROWTH OF PLANTS

A tachometer is a
device used to
measure

speed of
rotation

Crescograph
was invented by

J.C. Bose

**Name the branch of
Zoology that deals with the
scientific study of animal
behaviour.**

Ethology is taken as the **study** of individual behavioral patterns

Ethology

Ethology is the **scientific** and objective **study of animal behavior** under natural conditions, as opposed to behaviourism, which focuses on **behavioral** response **studies** in a laboratory setting.

**IVF (In Vitro
Fertilization) Technique
was first devised by**

Patrick Steptoe and Robert Edwards

In **vitro fertilization (IVF)** is an assisted reproductive technology (ART) **initially** introduced by Patrick Steptoe and Robert Edwards in the 1970s to treat female infertility caused by damaged or blocked fallopian tubes

**An instrument used
to measure the
density of milk is**

Lactometer

WHO INVENTED THE
ELECTRIC BULB?

Thomas Alva Edison
(If swan is not there)

Linkage is the close association of genes or other DNA sequences on the same chromosome. The closer two genes are to each other on the chromosome, the greater the probability that they will be inherited together

**“Linkage” was
discovered by**

Bateson

**Study of atmospheric
phenomena is called**

Meteorology

**Immunization
technique was
developed by**

Louis Pasteur: (born in 1822)

The discovery of the chicken cholera vaccine by Louis Pasteur revolutionized work in infectious diseases and can be considered the birth of immunology

In 1798 Edward Jenner introduced inoculation with cowpox (smallpox vaccine), a much safer procedure.

**Electric current is
measured using which
of the following
instrument ?**

Ammeter

Who discovered the first antibiotic ?

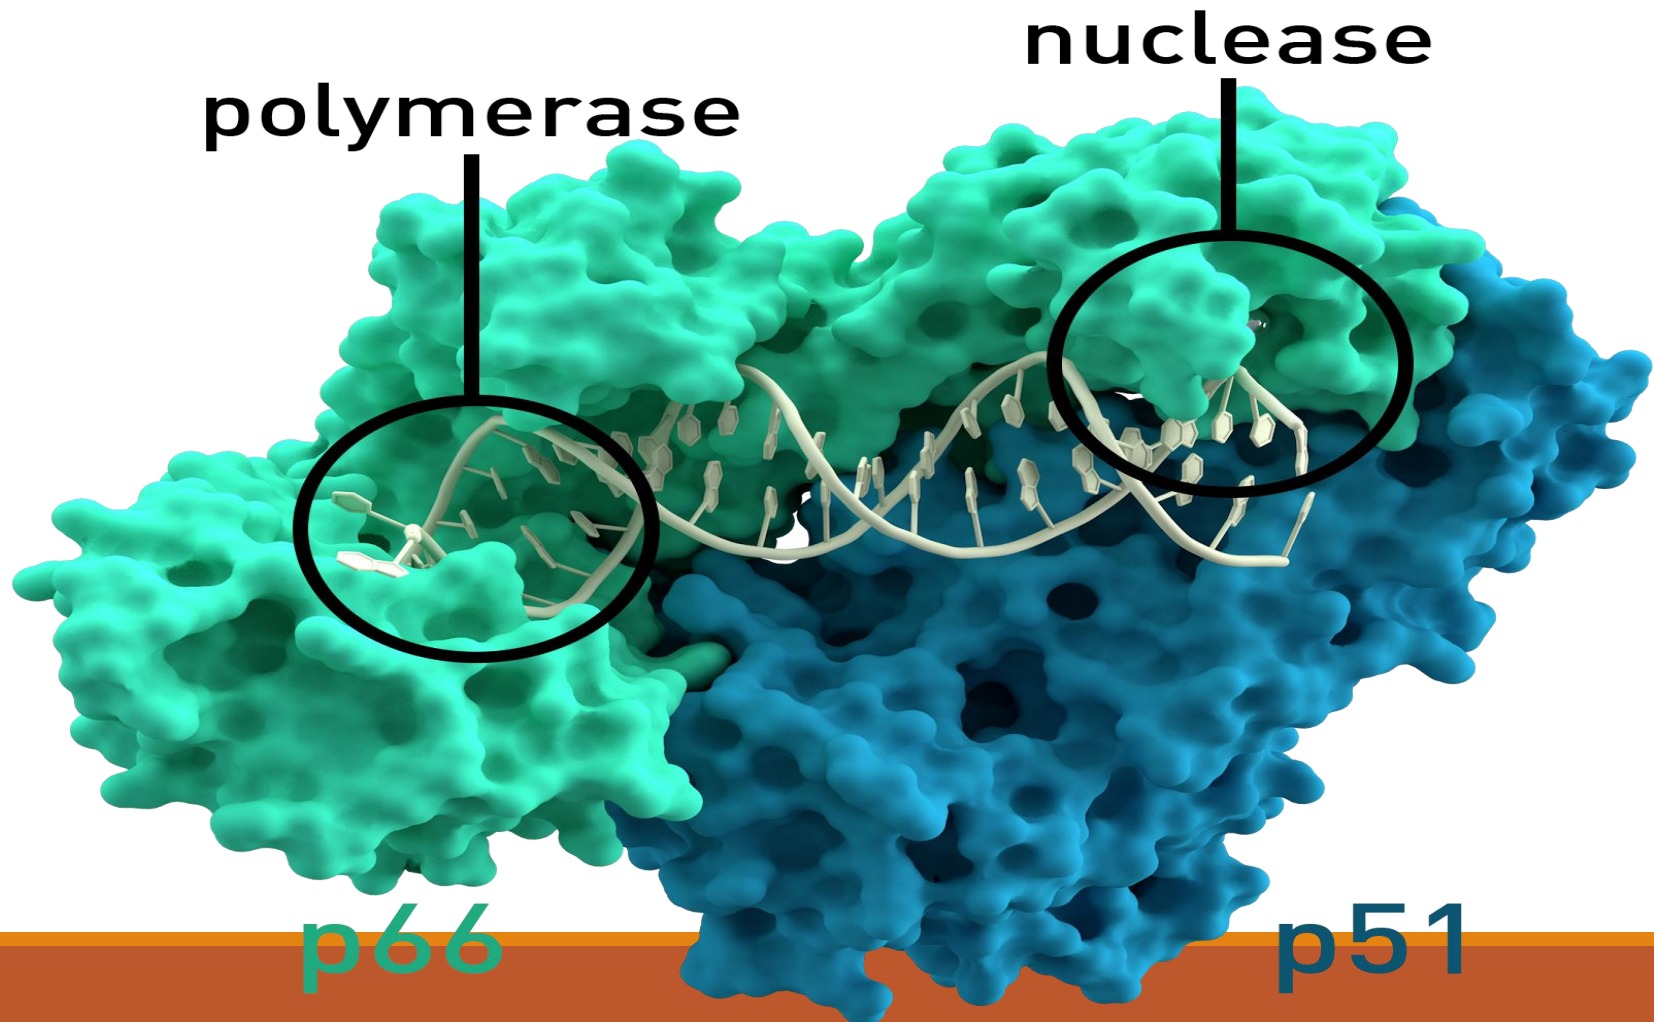

A Fleming

**Waksman got the Nobel
Prize for the discovery of
:**

Streptomycin

The Nobel Prize in Physiology or Medicine 1952 was awarded to **Selman Abraham Waksman** "for his discovery of streptomycin, the first antibiotic effective against tuberculosis."

Reverse transcription was discovered by :

Temin & Baltimore

A reverse transcriptase is an enzyme used to generate complementary DNA from an RNA template, a process termed reverse transcription.

**Phycology is the
study of**

the branch of botany concerned
with seaweeds and other algae.

Algae

**Who invented the
Safety razor?**

Gillette

**Who coined the
term 'gene'.**

Wilhelm Johannsen

**The instrument used to
measure pressure**

Aneroid Barometer

An **aneroid barometer** is an instrument for measuring pressure as a method that does not involve liquid.

Invented in 1844 by French scientist Lucien Vidi, the **aneroid barometer** uses a small, flexible metal box called an **aneroid cell** (capsule), which is made from an alloy of beryllium and copper.

**Richter Scale is
used for measuring**

○ Intensity of earthquake

**Who invented the
battery?**

Volta

**Who discovered the
link between electricity
and magnetism ?**

Maxwell

**Arachnology is the
study of:**

Study of spiders

More narrowly, the study of spiders alone (order Araneae) is known as **araneology**

Arachnology is the scientific study of spiders and related animals such as scorpions, pseudoscorpions, and harvestmen, collectively called arachnids

"father of genetic engineering."

Paul Berg

Sphygmomanometer measures the blood pressure in the

(1) Veins (2) Arteries

(3) Eyes (4) Synovial

Arteries

Sextant is an instrument used in which of the following ?

- (1) Gynaecology
- (2) Navigation
- (3) Birth control
- (4) Medical treatment

Navigation

**Which instrument is used for
photographing the Sun?**

Spectroheliograph

**The study of relation of animals
and plants to their surroundings
is called _____**

Ecology

**Preservation of historical
articles is done in science of**

Museology

The movement inside the Earth's crust is studied by which of the following ?

Seismology

**Which of the following is Study
of fossils ?**

Palaeontology

**Agronomy' is the practice of
raising**

Crop plants

Which instrument is used for measuring humidity of atmosphere?

Hygrometer

**The study of
mountains is known
as**

Orology

**Science dealing with
study of soil
is called**

Pedology

For what does the world owe Almon Strowger a debt of gratitude?

A. Traffic Lights

B. Automatic Telephone Exchanges

C. Parking Meters

D. Vending Machines

A solid orange horizontal bar at the bottom of the slide.

B Automatic Telephone Exchanges

Which insurance salesman invented the fountain pen in 1884?

A. Sir William Grove

B. Lewis Edson Waterman

C. George Fountain

D. Charles Kettering

Lewis Edson Waterman

B

Who invented the phonograph?

A.Alexander Graham Bell

B.Thomas Edison

C. John Kruesi

D.Jules Levy

A solid orange horizontal bar at the bottom of the slide.

Thomas Edison

Who invented Automobiles using gasoline?

A.Karl Benz

B.Leo H Baekeland

C.Kirkpatrick Macmillan

D.Evangelista Torricelli

A solid orange horizontal bar at the bottom of the slide.

Karl Benz

A

Who is often called the 'first African-American' inventor?

A. George Washington Carver

B. Bessie Blount

C. Elijah McCoy

D. Benjamin Banneker

A solid orange horizontal bar at the bottom of the slide.

A

George Washington Carver

When was the first elevator built?

A.1785

B.1743

C.1739

D.1760

A solid orange horizontal bar spanning the width of the slide at the bottom.

1743

B

What beverage was invented by Charles Alderton in 1885 in Waco, Texas?

A.Sprite

B.Cream soda

C.Coca-Cola

D.Dr. Pepper

A solid orange horizontal bar at the bottom of the slide.

Dr. Pepper

D

Who invented the battery?

A. Thomas Edison

B. John Wilkinson

C. Alessandro Volta

D. James Hargreaves

Alessandro Volta

C

The first hand glider was designed by...?

- A. Galileo
- B. Leonardo DaVinci
- C. The Wright brothers
- D. Francis Rogallo

Leonardo DaVinci

B

What charge card, developed in 1950, was the first to be accepted nationally in the US?

A.Diner's Club

B.Visa

C.Discover

D.MasterCharge

A solid orange horizontal bar at the bottom of the slide.

Who invented the first
widely used iron lung in
1928

**Philip Drinker was an
industrial hygienist.
With Louis Agassiz
Shaw,**

An **iron lung**, also known as a **tank ventilator** or **Drinker tank**, is a type of **negative pressure ventilator** (NPV); a **mechanical respirator** which encloses most of a person's body, and varies the air pressure in the enclosed space, to stimulate breathing

Where were wigs first invented?

- A.Egypt
- B.Japan
- C.France
- D.China

.Egypt

A

A solid orange horizontal bar spanning the width of the slide at the bottom.

**What furniture item was
invented by California furniture
designer Charles Prior Hall in
1968?**

- A. Captain's chair
- B. Sofa bed
- C. Hammock
- D. Waterbed

D

Waterbed

What Enrico Fermi invented?

A. Nuclear reactor

B. X ray machine

C. Betatron

D. Cyclotron

Nuclear reactor

A

The ELECTRIC BATTERY, who's charged with inventing this one?

A.Amper

B.Hertz

C.Volta

D.Galvani

A solid orange horizontal bar at the bottom of the slide.

Volta

c

The Manhattan Project was started by President Roosevelt in 1942 to ensure that the U.S. beat the Germans in developing a nuclear bomb. Whom did Roosevelt appoint as scientific head the Manhattan Project?

A.Vannevar Bush

B.Robert Oppenheimer

C.James B. Conant

D.Leslie R. Groves

A solid orange horizontal bar at the bottom of the slide.

Robert Oppenheimer

B

Which of the following was first patented by an Australian in 1889?

A.Electric Heater

B.Electric Drill

C.Electric Shaver

D.Electric Fence

A solid orange horizontal bar at the bottom of the slide.

Electric Drill

B

Who invented the **BALLPOINT PEN?**

A. Write Brothers

B. Waterman Brothers

C. Biro Brothers

D. Bicc Brothers

A solid orange horizontal bar at the bottom of the slide.

Biro Brothers

C

What did Benjamin Franklin invent ?

A. Hygrometer

B. Bifocal spectacles

C. Radio

D. Barometer

A solid orange horizontal bar at the bottom of the slide.

Bifocal spectacles

B

When was the first lawn mower invented?

A.1849

B.1830

C.1854

D.1835

A solid orange horizontal bar at the bottom of the slide.

1830

B

A solid orange horizontal bar spanning the entire width of the page at the bottom.

Who among the following invented the small pox vaccine?

A.Louis Pasteur

B.Robert Koch

C.Edward Jenner

D.Robert Hooke

Edward Jenner

C

In which decade was the first solid state integrated circuit demonstrated?

A.1950s

B.1960

C.1970

D.1980

A solid orange horizontal bar at the bottom of the slide.

1950s

A

In which decade were the first successful diode and triode vacuum tubes invented?

A.1800s

B.1900s

C.1880s

D.1890s

A solid orange horizontal bar at the bottom of the slide.

1900s

B

A solid orange horizontal bar spanning the width of the slide at the bottom.

What did George Westinghouse invent ?

A. Electric razor

B. Light bulb

C. Railway air brakes

D. Refrigerator

A solid orange horizontal bar at the bottom of the slide.

Railway air brakes

C

What did J. B. Dunlop invent ?

- A. Automobile wheel rim
- B. Pneumatic rubber tire
- C. Model airplanes
- D. Rubber boot

B

Pneumatic
rubber tyre

**This part-time race car driver
invented the bucket seat in 1969.
Who was he?**

A. John Wayne

B. Steve McQueen

C. Harrison Frazier

D. Paul Newman

A solid orange horizontal bar spanning the width of the slide at the bottom.

Steve McQueen

B

Who is the English physicist responsible for the 'Big Bang Theory'?

A. Roger Penrose

B. Albert Einstein

C. Michael Skube

D. George Gamow

A solid orange horizontal bar at the bottom of the slide.

George Gamow

D

Who is the only U.S. President to invent and patent something?

A. Rutherford B. Hayes

B. Abraham Lincoln

C. Theodore Roosevelt

D. Thomas Jefferson

Abraham Lincoln

B

Which scientist discovered the radioactive element radium?

A. Isaac Newton

B. Isaac Newton

C. Marie Curie

D. Benjamin Franklin

A solid orange horizontal bar at the bottom of the slide.

Marie Curie

C

Who invented Fountain Pen?

A.Sir Frank Whittle

B.John J. Loud

C.Kirkpatrick Macmillan

D.Lewis E. Waterman

A solid orange horizontal bar at the bottom of the slide.

Lewis E. Waterman

D

When was barb wire patented?

A.1900

B.1874

C.1840

D.1895

A solid orange horizontal bar at the bottom of the slide.

1874

B

A solid orange horizontal bar spanning the entire width of the page at the bottom.

Who invented Gramophone?

A. Thomas Alva Edison

B. Michael Faraday

C. Fahrenheit

D. Sir Alexander Graham Bell

A solid orange horizontal bar at the bottom of the slide.

Thomas Alva Edison

A

Who had an explosive idea and first patented DYNAMITE?

A.W. Bickford

B.J. R. Gluber

C.A. Nobel

D.G. Fawks

A solid orange horizontal bar at the bottom of the slide.

Nobel

c

A solid orange horizontal bar spanning the width of the slide at the bottom.

What is the name of the CalTech seismologist who invented the scale used to measure the magnitude of earthquakes?

A. Joshua Rumble

B. Charles Richter

C. Hiram Walker

D. Giuseppe Mercalli

o

Charles Richter

B

Who invented Internal Combustion Engine?

A.Otto

B.Roger Bacon

C.Karl Benz

D.Dr. Alan M. Turing

A solid orange horizontal bar at the bottom of the slide.

Nicolaus Otto

A

Who invented the Spinning Jenny?

- A. Peter Hargreaves
 - B. Simon Hargreaves
 - C. Thornton Hargreaves
 - D. James Hargreaves
- 
- A solid orange horizontal bar at the bottom of the slide.

D

James Hargreaves

The mail order cataloging, flexible urinary catheter, first pair of bifocals, wooden swim fins, lighting attractor and musical instrument 'Armonica' are inventions of

Oliver Evans

Benjamin Franklin

George Whatley

Thomas Jefferson

Benjamin Franklin

B

The microcomputer MITS Altair 8800 was designed in

1947

1970

1975

1978

A solid orange horizontal bar at the bottom of the slide.

1947

A

**The first machine gun named
'Maxim Gun' was invented by
American inventor Hiram Stevens
Maxim in**

1889

1864

1874

1884

1884

D

**What did Henry Bessemer
invent ?**

Steel Converter

Bessemer process

**The first headset was
invented by Nathaniel
Baldwin in**

1910

**The gun powder was
invented in**

9th century

China

**The gun powder was
invented in 9th century in**

Tang dynasty

The first graphical user interface used commercially after its introduction was popularized as

1979

**In 1979, the Xerox Palo Alto
Research**

**Center developed the first p
rototype for a GUI.**

The gas molecules that absorb thermal infrared radiation and are present in large quantity to change the climate system are known as

greenhouse gases

The greenhouse gases which is present in very high quantity is

propane

ethane

carbon dioxide

methane

The major greenhouse gases are water vapor, which causes about 36-70% of the greenhouse effect on Earth (not including clouds); carbon dioxide, which causes 9-26%; methane, which causes 4-9%, and ozone, which causes 3-7%.

The exchange of outgoing and incoming radiations that keep the Earth warm is known as

greenhouse effect

The wavelength of infrared radiations is

zero

finite

shorter

Longer THAN VISIBLE LIGHT

It is therefore invisible to the human eye.

...

The higher energy level and shorter wavelengths are features of

beta radiation

alpha radiation

ultraviolet radiation

infrared radiation

A solid orange horizontal bar at the bottom of the slide.

C

The granular silica gel which is made up of sodium silicate was invented by chemistry professor Walter A. Patrick in

1920

1918

1919

1819

A solid orange horizontal bar at the bottom of the slide.

1919

C

**The first gasoline-powered tractor was
invented by John Froelich in**

1882

1894

1986

1892

The Galileo was born in

1684

1584

1654

1564

1564

D

Galileo is known as

D

Italian Mathematician

Italian astronomer

Italian philosopher

A solid orange horizontal bar spanning the width of the slide at the bottom.

**The thermo-scope which is forerunner
of thermometer was designed by**

Albert Einstein

Galileo

Isaac Newton

Marie Curie

A solid orange horizontal bar at the bottom of the slide.

Galileo

B

The central black hole of galaxy Milky Way having mass of four million times than that of sun is known as

Capricorn A*

Scorpio A*

Taurus A*

Sagittarius A*

Sagittarius A*

D

**The gravitationally bound system of stars,
dust and interstellar gases is classified as**

asteroids

meteoroids

galaxy

planets

galaxy

c

The name of Galaxy in which our eight planet solar system lies is

Milky Way

Nebulae

Hubble

Galactic Center

A solid orange horizontal bar at the bottom of the slide.

Milky Way

A

The German scientist who is known as 'father of chemical warfare' is

Fritz Haber

Ernest Rutherford

William Ramsay

Louis Pasteur

Fritz Haber

A

The pioneer work of German scientist Fritz Haber is development of

fluorine as chemical weapon

chlorine as chemical weapon

magnesium as chemical weapon

potassium as chemical weapon

chlorine as chemical weapon

B

The FM radio was invented by

Gerald Pearson

Edwin H. Armstrong

Daryl Chapin

Calvin Southern Fuller

A solid orange horizontal bar at the bottom of the slide.

Edwin H. Armstrong

The first practical fluorescent lamp was invented in 1941 by

Arnold Orville Beckman

George Malcom

George Inman

George Whatley

George Inman

c

A solid orange horizontal bar spanning the width of the slide at the bottom.

The fiber glass is invented by Russell Games Slayter in

1932

1934

1936

1938

1938

The Facebook was made in

2004

2006

2005

2003

A solid orange horizontal bar at the bottom of the slide.

February 4, 2004

A

The eyeglasses are invented in Italy in

1586

1286

1386

1486

1286

B

The European Union was established in

1995

1985

1993

1983

A solid orange horizontal bar at the bottom of the slide.

1st Nov. 1993

**The institutions of the
European Union are**

the European Parliament,

the European Council,

the Council of the European Union,

the European Commission,

**the Court of Justice of the European
Union,**

the European Central Bank,

and the European Court of Auditors

The Maastricht Treaty established the politico-economic union known as

European Parliament

European Council

European Commission

European Union

European Union

D

A solid orange horizontal bar spanning the width of the slide at the bottom.

The parliament of European Union was elected by

European Council

European Union Citizens

European Economic Community

Court of Justice of European Union

European Union Citizens

B

The parliament of European Union was elected after

five years

six years

seven years

nine years

A solid orange horizontal bar at the bottom of the slide.

FIVE YEARS

**The name of the book written by
Nobel Prize winning Austrian physicist
Erwin Schrodinger is**

What is Life

AI-Chemist

AI-Chemy

What is Matrix Mechanics

What is Life

Answer A

The physicist who is known as 'father of nuclear physics' is

Ernest Rutherford

William Ramsay

Hermann Fischer

Frederick Crick

Ernest Rutherford

Answer A

The New Zealand born British physicist Ernest Rutherford won the Nobel Prize in

Geology

Biology

Chemistry

Physics

Chemistry 1908

The electronic instrument which is used to measure alkalinity or acidity of a liquid was invented by

Arnold Orville Beckman

Dr. Robbert H. Goddard

William G.Morgan

George Whatley

Arnold Orville Beckman

This statesman, politician, scholar, inventor, and one of early presidents of USA invented the swivel chair, the spherical sundial, the moldboard plow, and the cipher wheel.

A.George Washington

B.Alexander Hamilton

C.John Adams

D.Thomas Jefferson

A solid orange horizontal bar at the bottom of the slide.

Thomas Jefferson

Answer: Option D

What is the name of the CalTech seismologist who invented the scale used to measure the magnitude of earthquakes?

A.Charles Richter

B.Hiram Walker

C.Giuseppe Mercalli

D.Joshua Rumble

A solid orange horizontal bar at the bottom of the slide.

Charles Richter

What J. B. Dunlop invented?

A.Pneumatic rubber tire

B.Automobile wheel rim

C.Rubber boot

D.Model airplanes

A solid orange horizontal bar at the bottom of the slide.

Pneumatic rubber tyre

Answer: Option A

What James Watt invented?

- A. Diving bell
- B. Steam boat
- C. Hot air balloon
- D. Rotary steam engine

Watt steam engine

Who perfected GENETIC ENGINEERING?

A.Cohen & Boyer

B.Hunt & Davids

C.Sinclair & Roberts

D.Jaysson & Simons

A solid orange horizontal bar at the bottom of the slide.

Paul Berg is widely recognized as the "father of genetic engineering"

Genetic Engineering, the technique of DNA cloning was perfected by Stanley Cohen and Herbert Boyer in 1973.

**This part-time race car driver
invented the bucket seat in 1969.
Who was he?**

A.Steve McQueen

B.Harrison Frazier

C.Paul Newman

D.John Wayne

A solid orange horizontal bar spanning the width of the slide at the bottom.

Steve McQueen.

McQueen died in 1980 from a rare form of lung cancer.

Who invented Internal Combustion Engine?

A. Roger Bacon

B. Karl Benz

C. Dr. Alan M. Turing

D. Otto

Nicolaus Otto

The Manhattan Project was started by President Roosevelt in 1942 to ensure that the U.S. beat the Germans in developing a nuclear bomb. Whom did Roosevelt appoint as scientific head the Manhattan Project?

A.Robert Oppenheimer

B.James B. Conant

C.Leslie R. Groves

D.Vannevar Bush

A solid orange horizontal bar at the bottom of the slide.

Robert Oppenheimer

Leslie R. Groves, however, was the military head of the project and the overall supremo, while Robert Oppenheimer was the scientific director. The world's first atomic bomb was exploded in the New Mexico desert on July 16, 1945.

**Who is the English physicist
responsible for the 'Big Bang
Theory'?**

Georges Lemaître,

Who invented the Spinning Jenny?

A.Thornton Hargreaves

B.Peter Hargreaves

C.James Hargreaves

D.Simon Hargreaves

James Hargreaves

Which insurance salesman invented the fountain pen in 1884?

A. Lewis Edson Waterman

B. Sir William Grove

C. Charles Kettering

D. George Fountain

.

Lewis Edson Waterman

**What charge card, developed in 1950,
was the first to be accepted nationally
in the US?**

A. Visa

B. Discover

C. MasterCard

D. Diner's Club

The Diners Club Card

What Enrico Fermi invented?

- A.X ray machine
- B.Betatron
- C.Cyclotron
- D.Nuclear reactor

Nuclear reactor

The first hand glider was designed by...?

- A. Leonardo DaVinci
- B. The Wright brothers
- C. Francis Rogallo
- D. Galileo

Leonardo DaVinci

Sir Henry Bessemer (19 January 1813 – 15 March 1898) was an English **inventor-steel-making process**

Addison's disease

(a degenerative disease of the adrenal glands) and **Addisonian anemia** (pernicious anemia), a hematological disorder later found to be caused by failure to absorb vitamin B12.

In **Addison's disease**, your adrenal glands, located just above your kidneys, produce too little cortisol and, often, too little aldosterone

Thomas Addison

He described over 500 new animal species – especially butterflies and moths – and was one of the **founders** of *The American Naturalist*

Alphaeus s Packard Jr

.

He is best known for his pioneering work in the development of modern atomic theory; and his research into colour blindness, sometimes referred to as Daltonism, in his honour

sometimes called Dalton's Law "**New System of Chemical Philosophy**" (1808)

John Dalton

John Dalton

He is best known for introducing the atomic theory into chemistry, and for his research into colour blindness, sometimes referred to as Daltonism

John Dalton at times was known as the father of modern atomic theory

Joseph Louis Proust was an actor and a French chemist.

He was best known for his discovery of the **law of constant composition in 1799**, stating that **chemical compounds always combine in constant proportions**

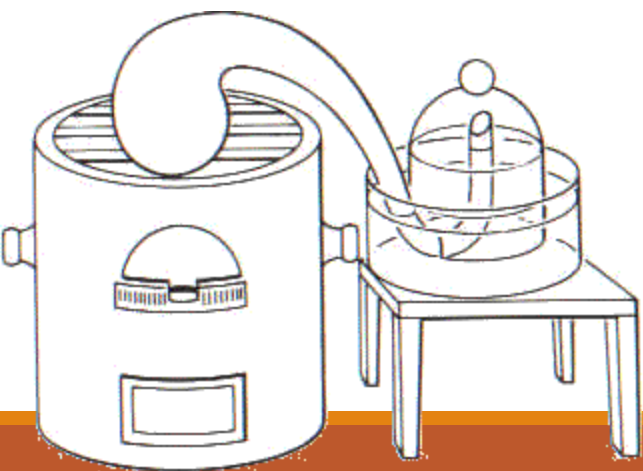

Law of definite proportions (by volume)
sometimes called **Proust's law** a chemical compound always contains exactly the same proportion of elements by mass.

Joseph Proust

Lavosier's apparatus for heating mercury in a confined volume of air

"father of modern chemistry"

The Law of Conservation of Mass states that matter can be changed from one form into another, mixtures can be separated or made, and pure substances can be decomposed, but the total amount of mass remains constant.

Antoine Lavoisier

Joseph Louis Gay Lussac

Joseph Louis Gay-Lussac was a French chemist and physicist.

He is known mostly for two laws related to gases, and for his work on alcohol-water mixtures, which led to the degrees Gay-Lussac used to measure alcoholic beverages in many countries

Gay-Lussac's **Law of Combining Volumes** (1808).

Jons Jacob Berzelius (1779-1848)

The development of the atomic theory in the period from 1811 to 1826 was dominated by the Swedish chemist

a Swedish chemist.

Berzelius is considered, along with Robert Boyle, John Dalton, and Antoine Lavoisier, to be **one of the founders of modern chemistry**.

Stephen William Hawking

Stephen William Hawking CH, CBE, FRS, FRSA is an English theoretical physicist, cosmologist, author and Director of Research at the Centre for Theoretical Cosmology within the University of Cambridge. Stephen was diagnosed with ALS, a form of Motor Neurone Disease, shortly after his 21st birthday.

A Brief History of Time

Guglielmo Marconi,

He is often credited as the inventor of radio and he shared the 1909 Nobel Prize in Physics with Karl Ferdinand Braun "in recognition of their contributions to the development of wireless telegraphy

development of Marconi's law and a radio telegraph system

The Wright brothers

credited with inventing and building the world's first successful airplane and making the first controlled, powered and sustained heavier-than-air human flight, on December 17, 1903. From 1905 to 1907, the brothers developed their flying machine into the first practical fixed-wing aircraft.

Who invented fuel cells in 1839?

A.oyce Hall

B.Buckminster Fuller

C.Sir William Grove

D.Sylvester Graham

A solid orange horizontal bar at the bottom of the slide.

Sir William Grove

C
